

I Appreciate my Teachers

Name: Brooklyn

First, I appreciate my teachers because they take time out of their life to make sure that we are smart, kind and responsible. Next I appreciate my teachers because they are so patient with us when we talk and they are talking. I also appreciate them because they teach us to never give up when things get hard and teach us you can achieve anything you can believe.

They also teach us how to be good sports and there's always something more to learn. Lastly, they make sure that we grow up to be good people.
