

Accessing Class Link at Home!

(ClassLink houses key programs such as i-Ready along with other apps used in school)

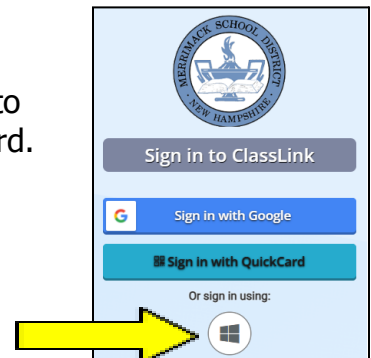

1) Head to your school's website:

- mes.sau26.org
- mues.sau26.org
- rfs.sau26.org
- tfs.sau26.org

2) Scroll down past the school photo and click on the ClassLink icon (you'll also find the ClassLink logo on the right side of the website)

3) For older students in grades 2-6, click on the **Windows** symbol to log in. Students will need to enter their school email and password.

4) For younger students in grades K-1, if they have a copy of their Quick Card from school, they can use that as well by clicking on the "**Sign in with Quick Card**" option. If the device you're using has a camera, you scan the QR code to access ClassLink and all the apps. **Check with the teacher if you'd like a copy.*
