

Space U Odyssey

Experience STEM like an astronaut during a five-day overnight camp!

Inspired by Real NASA Missions

This summer, Camp Strake becomes a launchpad for discovery as Space Center Houston's Space U joins forces with traditional summer camp adventures for an experience unlike any other.

Put your kids in the role of NASA scientists, engineers, and astronauts with hands-on STEM experiences! Campers will build teamwork, problem-solving and critical thinking through exciting space-themed challenges.

The 5 days include field trips for behind-the-scenes access to "the real thing," including exciting tours* of actual astronaut training and work facilities, such as NASA Johnson Space Center and Rocket Park.

At Camp Strake, campers will enjoy swimming, canoeing, climbing, shooting sports, outdoor skills, campfires, zip lines and building lifelong friendships.

Session 1: June 28 - July 3, 2026

Session 2: July 12-17, 2026

Ages 11-17
