7. Counselor Presentation

- Melissa Neverls, Counselor – Mental Health Guidance
- Tips for supporting emotional regulation and behaviors as children develop

- The Sabotaging C's of Implementing a Strategy
 1. Instead of CONTROL provide Choices. Instead of forcing compliance, set clear and simple limits.
 2. CONVENIENCE – deciding when and how you are going to implement a strategy will help avoid giving into convenience. Note *some behaviors get worse before they get better.
 3. COMMUNICATION – too much talking and negotiating while implementing a strategy often distracts from the original limit and can also escalate the child's responses. Instead, stick to breathing, repetition, and wait time.
