Education Report

Ms. Kim McKay

THE Ra WE Re ODESSA COLLEGE

ECISD TECHS

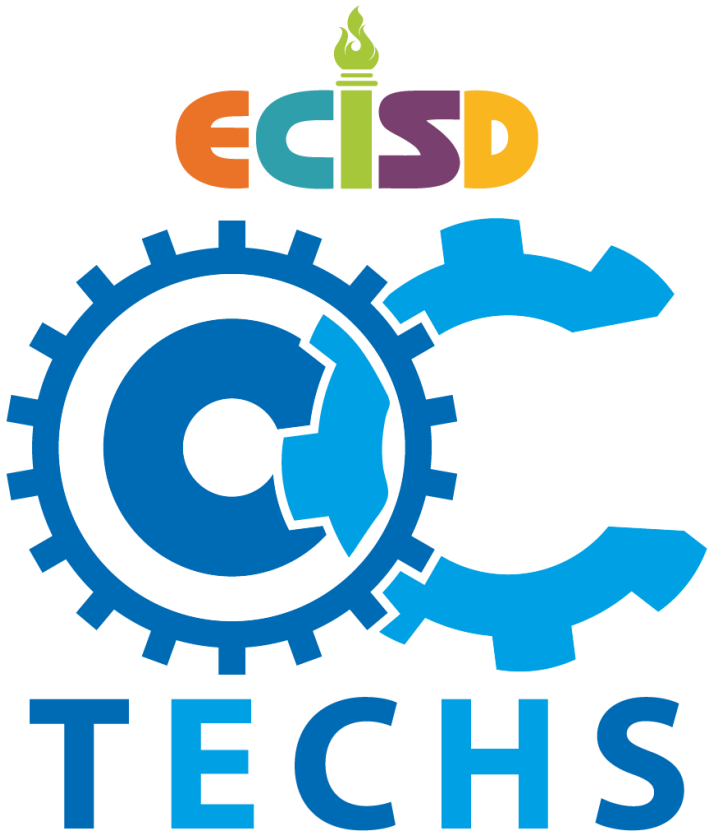

ECISD ODESSA COLLEGIATE ACADEMY

Our Early College High Schools continue to serve as one of Odessa College's **strongest talent-pipeline partnerships** with ECISD: providing students access to **college coursework**, **workforce credentials**, and **leadership opportunities** while still in high school.

Access Through a Fair Lottery Process

Interest in the ECHS continues to grow each year.

Admission is determined through a **transparent lottery process**, ensuring **equitable access** for students across the district **regardless of background or prior achievement.**

- Incoming freshman class: **146 students**
- Projected total enrollment next fall: **488 students**
- Current enrollment: **421 students grades 9–12**

This demand reflects strong community confidence in the program and its outcomes.

Record Student Success

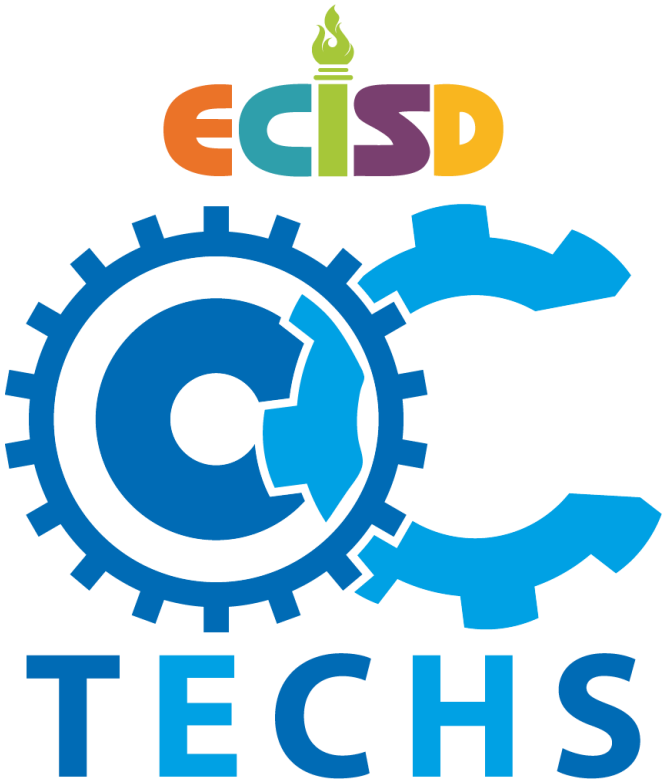

This year, OCTECHS will graduate **79 seniors out of 79 students**, the **largest graduating class in program history**.

Key success indicators:

- **98.5% graduation rate**
- **98% FAFSA completion rate**
- **35% first-generation college students**
- **68% economically disadvantaged students served**

Workforce & Career Pathway Impact

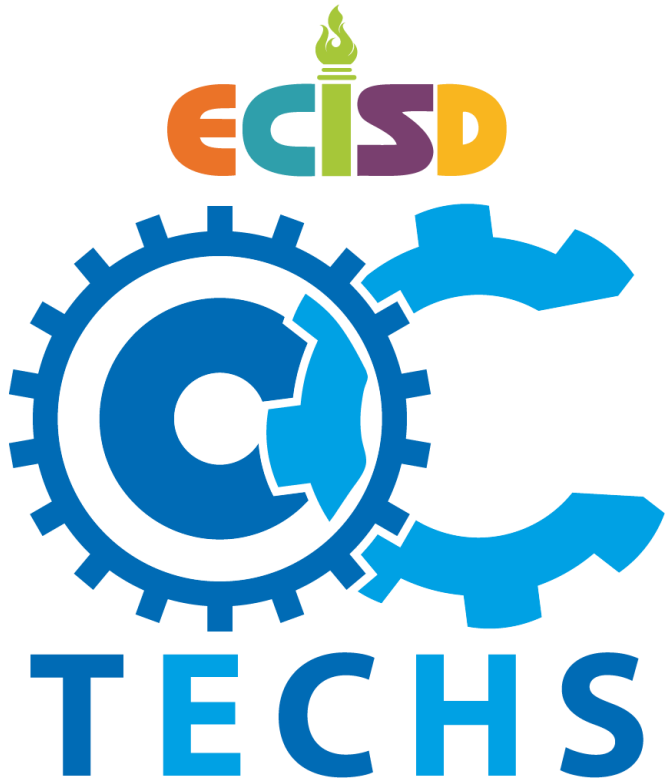

- Electrical Technology & Automation
- Diesel Technology
- Construction Management
- Welding
- Occupational Safety & Environmental Technology
- Criminal Justice
- Culinary Arts
- Business
- Child Development
- Auto Technology

These pathways directly support the Permian Basin workforce pipeline.

Graduates are continuing their education:

- Odessa College
- Texas Tech
- UTPB
- UTSA
- Schreiner University
- Washington University in St. Louis
- Cornell University
- Columbia University
- Brown University
- Military

Alumni Outcomes: Proof the Model Works

- Registered nurses
- Engineers and engineering interns
- Teachers and instructional facilitators
- I&E technicians in the energy sector
- EMTs and future flight paramedics
- Crime scene technicians
- Military service members
- Entrepreneurs and small business owners
- Automation engineering students and interns
- Workforce leaders returning to OC for advanced credentials

Many graduates remain in West Texas—strengthening our local workforce and economy.

ELIJAH CLASS OF 2022
