

West Muskingum Local Schools – FY27-29 One Plan Summary

This plan outlines how our schools will support student success over the next three years, with a focus on attendance, reading, and math, in partnership with families.

Attendance

Goal: Increase regular attendance

What this means for your child:

- Schools will monitor attendance and provide support early when concerns arise
- Staff will partner with families to address attendance challenges
- Students will receive additional support when needed to stay engaged with school

How families can partner:

- Ensure your child attends school regularly and arrives on time
 - Communicate with the school if challenges arise
 - Work with school staff to support consistent attendance
-

Reading

Goal: Improve reading skills for all students

What this means for your child:

- Strong focus on foundational reading skills in elementary grades
- Continued development of vocabulary and comprehension in older grades
- Use of proven instructional practices and regular progress monitoring

How families can partner:

- Encourage daily reading at home
 - Talk with your child about what they are reading
 - Stay informed about your child's progress and ask questions
-

Math

Goal: Strengthen math understanding and problem-solving skills

What this means for your child:

- Focus on building strong math foundations in early grades
- Increased emphasis on problem solving and reasoning
- Additional support for students who need it

How families can partner:

- Encourage your child to explain their thinking when solving problems
- Support practice of math skills at home
- Stay connected with teachers about your child's progress
