HEALTH SCIENCE ACADEMY

Join a two-year program preparing high school juniors and seniors for education and careers in the health science pathway

The Health Science Academy provides thematic instruction, dual credit, career exploration, job shadows, clinical experiences, hands-on labs, and certification opportunities for participating students.

- Career Exploration
- Job Shadowing
- Mentoring
- Field Experiences
- Certifications
- Dual Credit

Each day students spend three hours at the Academy and then return to their high school campus for the remainder of the school day. Data shows more than 90% of Academy graduates are either working in or pursuing a degree in healthcare.
