

January 2026 (FY26) Financial Reports

MANAGEMENT DISCUSSION AND ANALYSIS

Mission: Each student is highly educated, prepared for leadership and service, and empowered for success as a citizen in a global community.

Executive Summary

Fiscal year-to-date through January, total revenues are under plan (\$105.7 million, -19.4%) and total expenditures are under plan (\$12.3 million, 2.1%), taking the cash balance to \$93.4 million under plan at \$251.3 million. Property tax revenues are \$120.4 million under plan, State Aid is \$6.9 million over plan, and Other Revenues are \$8.0 million over plan YTD. Personnel costs are \$8.9 million under plan, Purchased Services are \$2.5 million under plan, Supplies and Materials are \$0.8 million under plan and Capital Outlays are \$4.9 million over plan YTD.

Through January 2026

Year to Date Revenues and Expenditures Overview^{1,2}

The annual spending plan was developed using data from the October 2025 Forecast. The data is allocated monthly using an average of prior fiscal years' actual revenue and expenditure activity. Using blended percentages of monthly expenditure activity for each line item works to smooth out month to month variances from one year to the next solely due to timing and not specifically indicative of behavioral changes. However, certain line-item allocations were modified to reflect the "bullet" nature³ of certain revenue or expenditure lines. For instance, rollback and homestead exemption is, in large part, received in one month twice each year but the actual month may vary year to year. Using the historical average of the monthly activity would spread that flow over several months creating monthly variances indicative of plan construction, not a change in actual behavior. For the plan, a singular month(s) was chosen as an estimate of when rollback and homestead exemption would be received. Monthly timing variances will be isolated to a one-to-two-month period and give a better (and sooner) picture of actual vs. planned revenue for this line.

At the end of each fiscal year, the unencumbered ending cash balance for every fund must be greater than or equal to zero. The General Fund acts as "banker" to the other funds at year end and advances are made from the General Fund to temporarily cover deficits in other funds' ending unencumbered cash balances. These advances are returned to the General Fund soon after the beginning of the new fiscal year, hence this transaction is merely an accounting entry and not indicative of a true, long-term reduction in General Fund cash balance. However, the General Fund must have sufficient cash to cover these advances.

As a reminder, FY26 is the first year of the state's biennial budget and the fifth year of the state funding model (the Fair School Funding Formula) that funds students where they are educated, not necessarily where they live. The impact on both revenue and expenditures of this new funding mechanism is reflected in the spending plan as was the case last fiscal year.

Revenues for January were \$116.5 million under plan and YTD were \$105.7 million under plan. Expenditures for January were \$2.1 million over plan and YTD were \$12.3 million under plan.

¹ Monthly financial reports are prepared in alignment with the forecast and as such include revenue and expenditures of the General Fund plus certain Debt Service Fund activity that is General Fund related.

² Numbers in graph titles and charts, e.g., "2.080", reference the corresponding line numbers in the financial report and forecast.

³ Certain revenue or expenditure items occur only once or twice each year, but the month may vary from year to year. For the plan, one or two specific months were selected for these lines.

Property Taxes (1.010) –Property tax receipts for the month were \$120.4 million under plan. The YTD under plan variance is at \$120.4 million or 29.2%. This is due to a delay in property tax advances due to a delay in tax bills being sent out. We expect the true variance to be known once settlement is received.

State Aid (1.035 & 1.040) –Over plan this month \$2.0 million shifting the YTD variance to \$6.9 million over plan, a 8.3% variance. \$17 million was factored into the plan for this fiscal year for transportation noncompliance penalties that have not yet been realized. The plan assumes this penalty will be realized evenly throughout the year.

Restricted Federal Grants (1.045) – Federal reimbursement of interest on the Qualified School Construction Bonds (QSCBs). Under plan \$0.2 million this month as expected. We received payment in December rather than January. This brings our YTD variance to \$0.05 million over plan.

State Reimbursement for Property Tax Credits (1.050) – There was no activity this month. YTD variance is below plan with a variance of \$0.3 million or 1.5%.

All Other Revenues (1.060) – Comprised of items such as tuition, fees, and investment income, the significant contributors are the Medicaid reimbursement and direct payments to the district for property tax settlements (PILOTs) and income tax sharing. Over plan this month at \$2.1 million bringing the YTD variance to \$8.0 million over plan. This variance is primarily attributed to interest in investments and the revenue sharing agreement with the City of Columbus coming in higher than expected.

Personnel (3.010 & 3.020) – \$2.8 million over plan this month, and \$8.9 million under plan on the year, 1.8%. This variance is because the spending plan for personnel assumes we are equally staffed throughout the fiscal year and identifies 3-pay months and then distributes the balance equally over the remaining months based on the historical monthly allocations.

Supplies & Materials (3.040) – A mixed bag of individual line items over/under plan for the month totaling \$1.8 million under plan MTD. On the year, the variance is \$0.8 million, 3.6% under plan, on \$22.3 million expended. This variance can primarily be attributed to object 527 – Electronic Instruction Material being \$3.7 million over plan. The reason for this variance is due to a change in the Uniform School Accounting System (USAS) manual that created the 527 object and shifted the spending from 447 – Internet Access Service, which is currently \$2.8 million under plan. On a budgetary basis, these lines are 71.64% expended or encumbered⁵. Line-item variances are noted in the following chart.

*3 highest (\$) under/over plan are highlighted.

⁵ As of 02-03-2026: revised budget \$46.9 million, expended \$22.5 million, encumbered \$11.1 million, available budget \$13.3 million.

Capital Outlay (aka equipment, 3.050) – The YTD variance presently stands at \$4.9 million or 161.1% over plan. On a budgetary basis, Capital Outlay is 77.79% expended or encumbered ⁶.

Debt-Service Related (4.020, 4.055, & 4.060) – These expenditures are for payments on the bus purchase bonds and QSCBs related to Transfers-In within the revenue section. This General Fund related debt, while recorded in the Debt Service Fund on district accounting records, is required to be restated within this report (Forecast format) to reflect their relationship with General Fund operations. A year-to-date variance of \$167,000 resulted from a sinking fund credit used to true up debt service associated with the final QSCB payment.

⁶ As of 02-03-2026: revised budget \$13.9 million, expended \$8.0 million, encumbered \$2.8 million, available budget \$3.1 million.

Other Objects (4.300) – Primarily County Auditor and Treasurer Fees and deductions for the County ESC. Over plan this month \$163,000 brings the YTD variance to \$107,000 or 2.4% under plan.

Other Financing Uses (5.040) – Transfers-Out and Advances-Out are included here. Over plan this month \$0.08 million bringing the YTD variance to \$4.7 million, 82.5%, under plan.
