

SUMMER SCHOOL PROGRAM CATALOG 2026

ART & ANIMATION

Today's digital production artist must rely on strong traditional art and animation skills combined with technical computer skills in order to meet the audience's visual expectations. Students will create their own 2D and 3D animations while being introduced to the tools and techniques professional artists use through a variety of hands-on projects.

AUTOMOVITE SERVICE TECHNOLOGY

The summer automotive program provides an introductory look at the four basic Automotive Service Excellence (ASE) areas: automotive electronics, engine/ transmission maintenance, brakes, and suspension; with respect to basic mechanics students will have the opportunity to dive deeper into engine performance and tuning. The program prepares students for intro jobs/ apprenticeships in the automotive world.

BEAUTY BASICS

This course is designed to provide an abbreviated version of a few of the elements of our full-length Cosmetology program that will introduce students to the cosmetology industry. Students will learn various skills pertaining to: hair design, manicuring, and skin care, as well as safety and sanitation. We will provide a fun learning environment where students can express their artistic talents while at the same time learning techniques used in the industry. This will be held on our New Market Campus.

BUSINESS & COMMUNITY LEADERSHIP

This course empowers students with socially responsible business and leadership skills through immersive community experiences. Each day focuses on a key theme—ranging from equity and environmental sustainability to law, education, and economic development—allowing students to engage directly with local businesses, nonprofits, and civic leaders. Community immersion days provide real-world exposure to the intersections of business and social impact, culminating in a collaborative service project. The course concludes with a reflection on how students can apply their new skills to create positive change in their communities.

CONSTRUCTION PROJECTS (option to purchase project)

The construction projects class is for everyone! Regardless of experience, this hands-on class will give students the chance to design and build an Adirondack chair, accompanying elliptical footrest, and round side table. Students learn jobsite safety, woodworking and construction skills, and apply knowledge in physical science, math, and engineering. Additionally, students focus on employability skills and problem-solving. The course is meant to introduce students to the process of designing/building in a fun and exciting atmosphere, while learning how to work safely. Students will have the option to purchase their finished project at the end of the session. \$35/footrest, \$40/chair, \$40/table

CRIMINAL JUSTICE

This summer program provides an overview of the criminal justice system and the diverse career opportunities in this growing field, with a strong focus on police work. Students will gain real-world experience through field trips to criminal justice and law enforcement facilities and interactions with experts from local, county, and state agencies.

The curriculum covers traffic law, patrol procedures, criminal law procedures, investigative techniques, law enforcement ethics and practices, conflict resolution, and interpersonal communication and problem-solving skills. In addition, students will participate in physical training and complete PT tests throughout the summer session.

CULINARY ARTS

This program combines our summer culinary arts curriculum with on-the-job training making our summer program unique and exciting for young people. Students gain valuable hands-on experience in fundamental cooking skills, daily commercial food production, customer service, restaurant operations, food theory, and professionalism while operating the full-service delicatessen, which serves our summer school campus.

*Students must have and bring their Food Handler Permit on the first day of class; this permit must be valid for the entirety of summer school.

FAMILY HEALTH / INTRO TO NURSING

Family Health/Intro to Nursing is a summer program designed to encourage and help young people make choices that promote physical, mental, and social well-being. This course emphasizes acquiring knowledge, skills, and attitudes as a means to a healthy lifestyle and behavior. Along with the health focus students will get an introduction to nursing/medical field, focusing on topics including Anatomy and Physiology, medical terminology, vital signs, healthcare job exploration, and an overview of what our Professional Medical Careers program here at New Market offers.

FIREFIGHTING + EMS CAREERS

Experience the exciting, meaningful, and high-demand world of firefighters and emergency responders. Learn about fire prevention, fire safety, firefighting, and emergency medical services. Earn your CPR/First Aid/AED card! Learn not only the skills necessary to become a firefighter or emergency medical responder, but also the skills to be an integral part of a community emergency response team in your own neighborhood.

JROTC - NAVY NATIONAL DEFENSE CADET CORPS

This program's mission is to instill the values of citizenship, service to the United States, personal responsibility, and a sense of accomplishment. The summer session will serve as an introduction to the full program offered throughout the school year.

MEDICAL ASSISTANT

This course is a starting point to introduce students to a career in the medical field. Learn the languages of doctors, nurses, and health care professionals. This course involves a curriculum introducing students to medical terminology, basic clinical skills, vital signs, body systems, healthcare career exploration and various other activities.

PRE-ELECTRICAL

The Pre-Electrical class is for anyone looking to learn the basics of the electrical trade. This class is hands-on and will give students opportunities to build circuits, install wiring systems, learn law math, as well as some basic construction skills. This class is a mixture of classroom learning along with practical opportunities in our workshop. Students will learn to work in teams and will see that the Electrical Industry can be a fun and rewarding career path.

VETERINARY ASSISTANT

This summer program is designed to give students an introduction to the animal health care field. The program includes small bits of both theory and practical application of skills and concepts such as animal restraint, terminology, anatomy, physiology, husbandry, medical nursing, and disease processes. Students gain hands-on experience and are introduced to the different educational and career opportunities in the field. While the summer program is dramatically shorter than the full year there is no opportunity to work directly with live animals, but students do get a feel of what the full year is like and they are better equipped to decide if this program is right for them!

VIDEO GAME PROGRAMMING

This class launches students into the world of writing code through the process of programming video games! The emphasis in this workshop is on learning the foundational programming concepts, including variables, conditional statements, and loops, that form the basis of game logic. Students will also be exposed to concepts in physics, graphics, and audio effects as they build a series of PC games.

WORKSITE LEARNING

Are you just finishing or just enrolling in a school-year program at New Market? Do you have a job and want to earn credit for working this summer? This is the program for you. Worksite Learning Credit is a wonderful opportunity for you to complete some of your elective credits towards graduation while you work. Students can earn .5 credits for every 180 hours worked. This summer program will run from June 26th through August 18th so students will have all summer to complete the hours necessary to get credit.

SUMMER SCHOOL

COSMETOLOGY PROGRAMS

COSMETOLOGY - CENTRALIA BEAUTY COLLEGE CAMPUS

This program is a continuation of, or a start to, the full cosmetology program. This is a 15 to 24 month commitment and the training provides the 1,600 hours necessary to take the state board exam for certification. Students starting in the summer will continue their instruction in the fall and must have a New Market application signed by their high school counselor. Students must be at least 16 years old, entering their junior year, and have their own transportation. Centralia Beauty College operates on a different schedule than New Market. For more information please call 360-736-2866.

STANDARD ESTHETICIAN-OLYMPIA SCHOOL OF ADVANCED SKINCARE CAMPUS

This is a 12 month commitment and the training provides the 750 hours necessary to take the WA state board exam for the WA State Esthetician License. Students starting in the summer will continue their instruction in the fall and must have a New Market application signed by their high school counselor. Students must be at least 16 years old, entering their junior year, and have their own transportation. Summer schedule is June 22 - August 21 (no school July 3rd), Monday - Friday, 8:30am - 4:30pm. School year schedule is Monday - Friday 8:00am - 10:30am.

SUMMER SCHOOL

THINGS TO KNOW

ATTENDANCE

Students missing more than two days will earn a failing grade. This rule applies to both excused and unexcused absences.

CLASS HOURS

Monday through Friday, 8:00 AM to 3:00 PM
There is no school on Friday, July 3rd

CLOSED CAMPUS

New Market is a closed campus. Students may not leave during the day without parent/guardian permission.

ELECTRONIC DEVICES

Students should refer to their program syllabus for electronic device policy. New Market is not responsible for theft, loss, or misplacement of personal items.

LUNCH AND NEW MARKET DELI

Students will get a 30 minute lunch break every day. They are welcome to bring lunch from home or purchase something from our New Market Deli. The Deli will be closed the first 2 days of summer session and the last 2 days so please remember to bring lunch and snacks from home those days. Students are not allowed to leave during the day as we are a closed campus.

MEDICATION

If your student is carrying medication and/or has a health safety plan, please contact New Market Skills Center's office for required paperwork. Student enrollment will not be complete until all forms have been turned in.

PROGRAM FEES

There are no program fees for our summer school programs.

REPORT CARDS

Grades will be reported to sending schools to be posted on high school transcripts and report cards will be mailed home within 2 weeks after the session.

TRANSPORTATION

School buses are not available for summer school. Transportation is the responsibility of the individual.
