QUESTION & ANSWER

Q Why does my Enhanced Math 8 student need to take geometry during the summer to advance to Algebra 2 or A2 Honors?

A Geometry concepts are not currently taught in Enhanced Math 8, which is a necessary prerequesite to Algebra 2.

Q If Enhanced Math courses are being eliminated, will my student lose access to advanced math options?

A No. Enhanced Math courses are being replaced with Honors courses, which continue the accelerated pathway to Precalculus, AP Calculus, or AP Statistics.

Q Does my student need to test into an Honors math class?

A No. All high school Honors math courses are open to students with the appropriate prerequisites and/or teacher recommendations.
