Community Advisory Committee (CAC)

What is CAC?

NUSD SELPA's Community Advisory Committee is a group formed to advise the SELPA about the Special Education Local Plan, annual priorities, parent education, and other special education related activities. The CAC is designed to be an interactive and collaborative partnership of educators, parents, and community members.

What does the CAC do? What is their function?

The CAC builds relationships between schools, families, and related agencies. We encourage community and parental involvement, and we support activities on behalf of individuals with exceptional needs. We provide families with an opportunity to share resources and support.

Who can be a member? Who should attend?

ALL are welcome! The CAC shall be composed of parents, educators, community agency staff, and other interested persons. This person is appointed and approved by the district's governing board. However, CAC meetings are open to ALL interested in supporting children with exceptional needs. We strive to have our CAC composed of a majority of parents of children with exceptional needs.
