Objection to Building Plans Four and Five Public Comment

Sat, Mar 21, 2026 at 10:08 AM

Diane Mulvaney asked me to forward a copy of my comments made at the March 18th meeting. See below. Please disregard previous email attachment. A follow-up letter is forthcoming.

Traffic Hazards and Safety Concerns, Objections to Plans 4 and 5

I ask you to imagine a day where teachers are arriving early to start their day, residents are trying to get to work, congregants are coming or leaving an early mass, busses are approaching and children and other pedestrians are walking in the street.

I understand there are alternative plans to renovate the current Mosher school, potentially adding a large addition or one that is somewhat smaller. I understand that there are also alternative plans to build behind the middle school. I would like it to be recorded that I speak now to support any of those plans which I understand are numbered 1, 2, 3, 6, and 7. I hope that the board will consider this before submitting a final plan to the state in the near future.

Hello,

During the March 18th meeting, in response to a question concerning property values in the Parkview neighborhood, committee member Rudi Hall mentioned that in the 10 years since completion of the Eastampton High School building project, property values have increased by 120%. On its own, 120 is a lonely number, so curious as to what sources he was quoting from and is that number limited to properties in close proximity to the school or the entire town of Easthampton. Please respond so that I may get a better understanding of the situation.

Thanks
