Background:

The ID Printer Bid was initiated to replace the District's existing Board approved Identification and Card Solution Agreement (FY21 213), which expired on January 31, 2026, and to ensure continuity of student and staff ID card production. Concurrently, District leadership advanced a unified badging initiative to standardize identification, enhance safety practices, and address aging or discontinued printer models, prompting the need for updated, scalable equipment. As a result, ITB26 104 was issued through a competitive solicitation process, culminating in a recommendation to award the bid to Identisys Incorporated to maintain uninterrupted operations and support District-wide badging needs.
