Galena Park ISD Recognizes Superintendent's Student Advisory Board

Galena Park Independent School District proudly recognized the Superintendent's Student Advisory Board for their leadership and dedicated service during the April 13, 2026, Board of Trustees meeting. Trustees honored students for their commitment to representing the student voice and supporting positive growth across the district. Students selected to serve on the Superintendent's Student Advisory Board meet with Dr. John Moore, Superintendent of Schools, and other district leaders throughout the year to provide feedback on important student, school, and community concerns. Advisory board members are respected campus, community, and peer leaders who offer valuable perspectives and serve as ambassadors for Galena Park ISD. Their input helps guide district decision-making and supports the continuous improvement of programs and services offered to students.

As part of their service, advisory board members are required to complete a community service project. This year, students led an anti-vaping awareness campaign, creating posters and public service announcements that were shared across campuses during Vaping Awareness Month. The project highlighted the students' leadership and dedication to promoting healthy choices within the school community.
