

School District Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan. An IPM plan is required if a school district uses pesticides¹.

IPM statement

It is the goal of Victor Elementary School District to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: *(Example: Focus on long-term pest prevention)*

Include the following: proper material placement, responsible reporting, following sanitation guidelines, complying with latest regulations, using only approved pesticides, following quality assured procedures, preventing ecological problems, evaluating effectiveness, assurance of pest protection

IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title	Role in IPM program
Jennifer Sharp, Director of Risk Management	Responsible for safety practices
Jeff Berrios, Maintenance Supervisor	Responsible for departments, purchases and service control
Grounds Crew	Herbicide spraying
Jonathan Clark, Pro Tech Pest Elimination	Q.A.L. and service control
Carmelo Di Matteo, Pro Weeds Control	Q.A.L. and Q.A.C., owner

Pest management contracting

- Pest management services are contracted to a licensed pest control business.
Pest Control Business name(s): Pro Tech Pest Elimination
- Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest identification, monitoring and inspection

Pest identification is done by: Pro Tech Pest Elimination and district staff

(Example: College/University staff, Pest Control Business, etc.)

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by School Staff, Maintenance, Operations and results are communicated to the IPM Coordinator.

(Example: District staff title, e.g. Maintenance staff)

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:

(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)

Routine visual inspections

Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
Rodents	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Glue traps
Ants	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Chemical treatment
Spiders	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	
Weeds	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Selective herbicide treatment
	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

Chemical pest management practices

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):

District Staff Applications: Princep Liquid (2-chloro-4, 6-bis(ethylamino)-s-triazine), Trimec Plus (Dimethylamine Salt of 2,4-dichlorophenoxyacetic acid (2,4-D) 3,6-dichloro-o-anisic acid (Dicamba) R(+)-2-(2-Methyl-4-chlorophenoxy) propionic acid (MCP)), Ranger Pro (Isopropylamine salt of glyphosate, surfactant blend (proprietary))
Licensed Pest Control Company Applications: Taurus SC (Fipronil), Bifen I/T (Bifenthrin), Advion Roach Gel Bait (Indoxacarb), Temprid FX (Imidacloprid, Beta-Cyfluthrin & Naphthalene), Optigard Ant Gel Bait (Thiamethoxam), Glue Boards, Burrow RX Roundup Pro Concentrate (Glyphosate), Specticle FLO (indazifcam)

Healthy Schools Act

This school district complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 - 17613, 48980.3; Food & Agricultural Code Sections 13180 - 13188)

Training

Every year school district employees who make pesticide applications receive the following training prior to pesticide use:

- Pesticide specific safety training (Title 3 California Code of Regulations 6724)
- School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).

Submittal of pesticide use reports

Reports of all pesticides applied by school district staff during the calendar year, except pesticides exempt¹ from HSA recordkeeping, are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form provided at www.cdpr.ca.gov/schoolipm. (Education Code Section 16711)

Notification

This school district has made this IPM plan publicly available by the following methods (check at least one):

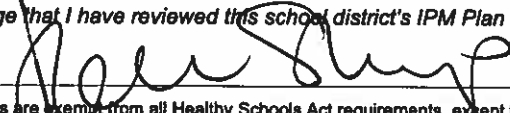

- This IPM plan can be found online at the following web address: www.vesd.net/for_parents/important_forms_disclosures
- This IPM plan is sent out to all parents, guardians and staff annually.

Review

This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true and correct.

Date of next review: April 1, 2027

I acknowledge that I have reviewed this school district's IPM Plan and it is true and correct.

Signature:  Date: 4/1/26

¹ These pesticides are exempt from all Healthy Schools Act requirements, except the training requirement: 1) products used in self-contained baits or traps, 2) gels or pastes used as crack and crevice treatments, 3) antimicrobials, and 4) pesticides exempt from U.S. EPA registration. (Education Code Section 17610.5)

Plan de Manejo de Plagas Integrado del Distrito Escolar

Cuando se haya completado, este modelo reúne el requisito de la Ley de Escuelas Saludables para un plan de manejo integrado de plagas (IPM). Se requiere un plan de IPM si un distrito escolar utiliza pesticidas¹.

Contactos

Declaración de IPM

Es la meta del Victor Elementary School District implementar el IPM centrándose en la prevención o represión de plagas a través de la identificación precisa de plagas a largo plazo, mediante la monitorización frecuente de la presencia de plagas, mediante la aplicación de niveles de acción adecuados, y al hacer el hábitat menos propicio a las plagas utilizando el saneamiento y controles mecánicos y físicos. Los pesticidas efectivos serán utilizados de una manera que minimice los riesgos para las personas, los bienes y el medio ambiente, y solo después de que otras opciones se han mostrado ineficaces.

Nuestros objetivos de manejo de plagas son: *(Ejemplo: Enfoque en la prevención de plagas a largo plazo)*

Incluye lo siguiente: la colocación adecuada de material, reportes responsables, el seguir las pautas de saneamiento, cumplir con las normas más recientes, el solo uso de pesticidas aprobados, seguir los procedimientos garantizados de calidad, la prevención de problemas ecológicos, evaluación de la eficacia, la garantía de la protección de plagas

Equipo de IPM

Además del Coordinador de IPM, otros individuos que están involucrados en la compra, el tomar decisiones de IPM, la aplicación de pesticidas, y el cumplir con los requisitos de la Ley de Escuelas Saludables, incluyen:

Nombre y/o Título	Papel en el Programa IPM
Jennifer Sharp, Directora de Gestión de Riesgos	Responsable por prácticas de seguridad
Jeff Berrios, Supervisor de Mantenimiento	Responsable por los departamentos, compras, y control de servicio
Equipo de Terrenos	Fumigación de herbicidas
Jonathan Clark, Pro Tech Pest Elimination	Q.A.L., y control de servicios
Carmelo Di Matteo, Pro Weeds Control	Q.A.L. and Q.A.C., owner

Contratación de manejo de plagas

Para servicios de manejo de plagas se le contrata a una empresa de control de plagas licenciada.

Nombre del Negocio de Control de Plaga(s): Pro Tech Pest Elimination

Antes de entrar en un contrato, el distrito escolar ha confirmado que el negocio de control de plagas entiende el requisito de capacitación y otros requisitos de la Ley de Escuelas Saludables.

Identificación, control y inspección de plagas

La identificación de Plagas se hace mediante: Pro Tech Pest Elimination y el personal del distrito

(Ejemplo: Colegio/personal de la Universidad, Negocio de Control de Plagas, etc.)

Supervisión e inspección de las plagas y las condiciones que conducen a problemas de plagas se hacen regularmente por el personal de la escuela, Mantenimiento, Operaciones y los resultados se comunicaran al Coordinador de IPM.

(Ejemplo: Título personal del Distrito, por ejemplo, Personal de Mantenimiento)

Información específica acerca de la supervisión e inspección de las plagas, como lugares, horas, o técnicas incluyen:

(Ejemplo: tablas para monitoreo se colocan en la cocina y se revisan semanalmente por el personal de custodia.)

Inspecciones visuales de rutina
