

Skyward Family Access Details

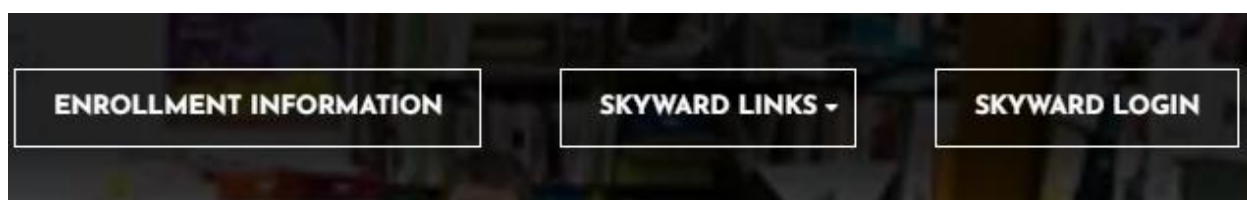

The West Bonner County School District recognizes that many parents/guardians would like to play a greater role in their child's education and that it is our role to make that as easy as possible. One way to do that is to help parents/guardians log in to Skyward and fully understand the information available in that system. Skyward contains information about your family, information specific to each child in your family, and a variety of information about your child's education. We will outline the steps needed to access Skyward and then explain the variety of information available to you there.

Who has access to Skyward?

The West Bonner County School District creates a Skyward login and password for each parent/ legal guardian. If both the child's parents/legal guardians live in the same household, each parent/legal guardian receives a unique login and password and can view and edit the same information in Skyward. If the parents/legal guardians of a child live in two households, each parent/guardian has access to the same child-specific information in Skyward (grading, attendance, test scores, etc.) but can only view/edit the family information specific to their household. If an adult in any household is not a parent/legal guardian of the child, that adult will not have access to Skyward.

How to Access Skyward Family Access

Skyward Family Access is available through the West Bonner Schools District website, www.sd83.org. At the top of the district webpage, there are a few quick link buttons to help you navigate to various areas of our website. You will want to click on the word "Skyward" to access the login page.

To use the Skyward software, you need your Skyward login and password, and you may need to enable cookies in your web browser. To allow or accept cookies, please refer to your internet browser manual.

Forgot your login or password?

If you don't know your Skyward login or password information, please click on the blue link on the Skyward login page that is titled "Forgot your Username or Password?". This will take you to the Forgotten Login/Password Assistance page, where you can enter your username or password to have a reset email sent to you. If you prefer, you can also always contact the office at your children's school or email WyattSmith@sd83.org.

Information Available on Skyward

Once you log in to Skyward, you will see the home page with a banner across the top and several tiles beneath the banner.

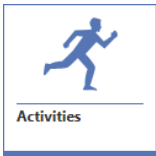

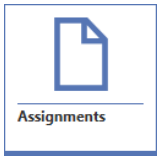

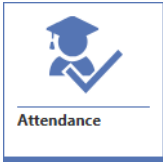

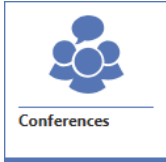

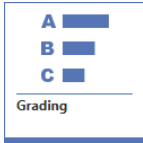

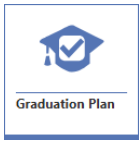

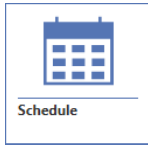

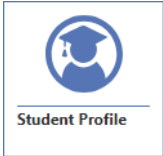

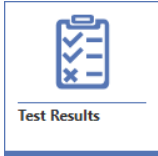

1. The large Skyward icon will always return you to the main home page when you click on it.
2. The Skyward default is to show the family level information at the top of the page and the information specific to each student below that. To view certain information about your child, you can scroll down or select their name at the top of the page in the colored banner.
3. The green square with three horizontal lines is the button for the main menu. There are two ways to access Skyward information. One is to click the tiles, and the other is to select from the menu list. Either option takes you to the same information.
4. The blue square with the stars will give you a list of areas you have marked as a favorite so that you can navigate directly to them from your Favorites instead of the menu or tiles.
5. Use the search icon when you want to search Skyward for a keyword or topic. Any matching results will display, and you can select what you'd like to see from that list.
6. To mark something as a favorite, click the star at the top of the page you want to mark as a favorite. It defaults to being clear and will appear as a blue or white star when clicked.

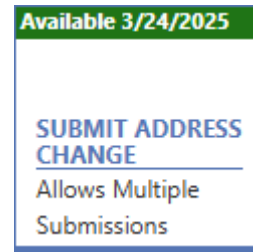

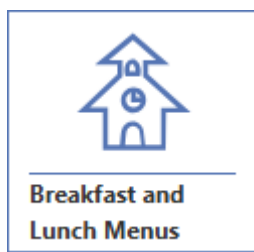

1. The downward arrow/carrot next to your name can be selected when you need to reset your password or set your screen preferences.
2. The “What’s New” feature will show you information about things that may be new in Skyward as time goes on. When there are new features to see, a red circle indicator shows the number of updates in the circle.
3. The “My Messages” feature will be where you can find messages from teachers or administrators. Messages sent here will also automatically forward to the email on file in Skyward for you. When new messages arrive, a red circle indicator shows the number.
4. The “My Tasks & Processes” feature shows a list of the tasks and recurring processes that are set up to your account.
5. The “Knowledge Hub” feature is where you can access information about what version of Skyward you are using.
6. The “Sign Out” icon will log you out of Skyward.
7. The “Compress” feature is used to format your display to better fit on a laptop or Chromebook.
8. The “Dock” feature is another way to save favorite areas of Skyward. If you are on a screen and want to save a shortcut to it, click the Dock icon, then select the “Add to Dock” option, and it will appear beneath the main menu (green square) icon.
9. The “New Window” feature is used when you want to see multiple screens of Skyward at the same time.

On the home screen, several tiles are displayed. The main tiles are:

 Academic History: Displays all courses and final grades the student has taken throughout their time in the West Bonner School District.	 Activities: Displays all athletic and club activities the student has participated in throughout their time in the West Bonner School District.	 Assignments: Shows Upcoming, Missing, and Past Assignments.
 Attendance: See your child's attendance details and use the Absence Request tab to submit future absences to your child's school.	 Conferences: Schedule and view conference appointments with your child's teacher.	 Fees & Fee Payments: View any fees due and view a previous payment history for the current school year.
 Food Service: See all payments made to the food service account and a record of all purchases made by your child.	 Grading: Displays all grades, including your child's GPA, rank, and earned credits.	 Graduation Plan: Displays how many credits have been earned towards graduation in each required area.

 Health: View any health conditions, health plans, or medications that are documented for your child.	 Portfolio: See any documents that are part of your child's record, such as report cards, transcripts, and attendance letters	 Schedule: View your child's current schedule.
 School Contacts: View the primary contacts at your child's school for attendance, discipline, fees, food service, and health.	 Student Profile: Displays basic information such as student ID number and email, family address, guardian email and phone number, family ID number, and emergency contact information.	 Test Results: See your child's scores for various assessments and tests.

There are also tiles for things like the breakfast and lunch menus, submitting a free and reduced food service application form, and notifying the district of an address change. Additionally, a tile will appear whenever a form or registration process needs to be completed. These tiles may change from time to time but are always available when needed.

Possible Age of Majority Restrictions

The age of majority in the State of Idaho is 18. Once a student reaches this age, they may complete paperwork that formally indicates they wish to assume the rights and responsibilities of a parent or guardian for minor children.

When completing this paperwork, a student may revoke a parent/guardian's access to all the student's Skyward records. Parents would still have the right to ask for paper copies of their child's educational records.

Additional Questions or Concerns?

Please contact the office at your child's school or Wyatt Smith at Wyattsmith@sd83.org if you need further assistance.
