WHY WE DON'T USE STRAWS IN OUR CAFETERIAS

#SAVE THE TURTLES

Did you know that straws can end up in the ocean and hurt sea turtles like our friend Lulu? By skipping straws, you're helping protect her and all her underwater buddies!

LESS PLASTIC, MORE FUN!

Throwing away straws creates a lot of trash. Let's keep our planet clean and green by saying no to plastic straws!

SP SMARTER!

Plastic straws might seem easy, but they're tough on the planet. Ditch the straw and go green with every sip!

BE A HERO FOR LULU!

Join the team and help Lulu the turtle by choosing to go straw-free. Together, we can make a big difference!

Turtle of the year

Pomptonian's
V.I.T
Very Important Turtle

Each year, Pomptonian proudly sponsors and names a turtle through Sea Turtle Recovery, a New Jersey organization dedicated to rescuing and rehabilitating sea turtles. This year, we named our turtle Lulu! By going straw-free, you're helping protect turtles like Lulu and supporting the important work of Sea Turtle Recovery.
