Student Health Insurance - **INTERNATIONAL STUDENTS**

Information for 2026-2027

General Information About Student Health Insurance

Out of concern for the health and welfare of all our students, St. Mark's School requires that every student be covered by a comprehensive injury and sickness plan; one that meets the high cost of medical services and is accepted by local providers and practitioners.

Our current plan is offered by Clifford Allen Associates with the new claims administrator Total Scholastic Solutions (TSS) and underwritten by Crum & Forster. This plan is the best option to minimize out of pocket expenses to families if a student requires medical or behavioral health services while at school.

General Plan Details

The student health insurance plan provides primary, first dollar benefits for those who do not have any insurance or whose coverage is not accepted outside your geographical area. This plan was designed specifically for private secondary schools.

- ***Please note that we will not accept medical insurance policies issued in a foreign country or from a company outside the U.S. If you have questions as to whether your student's current health insurance may satisfy the school's requirements, please contact us prior to enrolling your student.***

This document is intended to address questions you may have about the insurance coverage, the enrollment process, and what to expect afterwards.
