**MORRIS HILLS REGIONAL DISTRICT
9th GRADE COURSE SELECTION SHEET 2026-2027**

MHRD Program of Studies

IMPORTANT MESSAGE TO STUDENTS AND PARENTS

Selecting subjects for the high school years is extremely important. As early as it may seem, the decisions made now can have a tremendous influence on the future. Students and parents are encouraged to get all of the assistance possible to help them in this decision-making process. Your teachers and counselors are the professionals who will assist you in selecting subjects that best fit your needs and abilities. Do not hesitate to seek their advice. If you wish to contact the eighth-grade counselor, teacher, or principal, please call the middle school. If you want to speak with a counselor at the high school, please call:

**MORRIS KNOLLS SCHOOL COUNSELING OFFICE – 973-664-2223 or 973-664-2211
MORRIS HILLS SCHOOL COUNSELING OFFICE – 973-664-2313 or 973-664-2484**

THINGS TO REMEMBER WHEN PLANNING YOUR PROGRAM

1. In order to graduate, all students need a total of 140 credits. Five credit courses run the entire year and two and a half credit courses are semester offerings. Please refer to the Program of Studies to review the graduation requirements for all incoming freshmen. The Program of Studies can be accessed online at www.mhrd.org under the "Curriculum" tab or you can scan the QR code found on the top of page 1.
2. The district has an alternate day block schedule format, including lunch; therefore, every student should select enough credits to fill a minimum of seven blocks. English, world history, mathematics, and science levels are determined by 8th grade teacher recommendations (current performance and previous standardized testing results are considered). All 9th graders must take Physical Education and Health. Additional course selections will depend upon a student's interest and ability. Parents and students should refer to the [Program of Studies](#) for program suggestions and course descriptions. Students are strongly encouraged to select a course in world language, visual/performing arts, and/or twenty first century life and careers to fulfill state and district requirements.
3. Parents and students should be aware that there may be minor changes in a requested schedule due to a conflict in scheduling some courses. In these cases, students may not be scheduled for their first or second elective course selections to complete the schedule. If your child decides to change their recommended academic courses or electives, please refer to the "[Schedule Change Calendar](#)" section located in the general information page of the Program of Studies. Careful planning and knowledge of course offerings will help avoid such requests.
4. In accordance with Board of Education policy, all students who participate in athletics or after-school activities sponsored by the school, including those associated with classes such as Yearbook Publications or TV Production will be entered into the random drug testing pool. Participation in all athletic programs or after-school activities is voluntary.

COURSE LEVEL ADJUSTMENTS

At the end of 8th grade, middle school teachers will collaborate with the high school staff to make final recommendations for course placement. Grades, standardized test scores, teacher recommendations, and scores on any placement exams (mathematics) will be taken into consideration to determine if any adjustments need to be made to course recommendations. **Parent requests to waive their child into a higher level academic course will ONLY be considered up to June 30th.**

A MESSAGE TO PARENTS

It is time to assist your student with selecting their courses for their sophomore year. It is important to encourage your child to take their time to choose their courses carefully. All course descriptions can be found in the [Program of Studies](#) which is posted on the district website (www.mhrd.org) for your use. You can find it under the "Curriculum" tab. Please understand that It may be difficult to change course selections at a later date. If your child decides to change their recommended academic courses or electives, please refer to the "[Schedule Change Calendar](#)" section located in the general information page of the Program of Studies. If you have any specific questions or concerns, please contact your child's school counselor. Please note that parent requests to waive their child into a higher level academic course will **ONLY** be considered up to **June 1st**. Course waiver forms **WILL NOT** be accepted after the last day of school in June.

All students must earn a minimum of 30 credits by the end of their freshman year (including summer school) to be promoted to Grade 10
