

Register now for **2026 CAMP SLPS!**

St. Louis Public Schools offers summer learning opportunities for all grade levels. During the 4-week session, elementary and middle school students engage in learning for their rising grade level and participate in project-based Choose Your Own Adventure themed experiences. At the high school level, students can recover credit or earn first-time credit in a select number of courses.

CampSLPS 2026 will take place from June 1–26, 2026. School is not in session on June 19 to observe the Juneteenth holiday.

CampSLPS Times:

Tier 1: 7:50–1:20

All middle and high school sites
Gateway Michael, ETS @ Madison, Nottingham

Tier 2: 9:00–2:30

All elementary school sites

 - *Early registration ensures transportation!*
- **Transportation available**
- Free breakfast and lunch
- Aftercare available at all elementary schools (limited availability)

Register HERE!

CHOOSE YOUR OWN ADVENTURE!

PARTICIPATE IN A FOUR-WEEK ADVENTURE!

June 1 - June 26

Spirit Adventure

Bring your energy, teamwork, and creativity to Spirit Adventure! Students will learn the basics of cheer and dance, explore rhythm and movement, and work together to perform original cheers that spread school pride.

All-Star Adventure

In All-Star Adventure, students will train like athletes and think like team players. They will build sports skills, design their own games, and discover how strategy and sportsmanship make a winning team.

Inventor's Adventure

In Innovator's Adventure, creativity meets engineering. Students will tackle design challenges, build prototypes, and use technology to invent solutions for real-world problems. From coding to construction, this academy inspires the next generation of problem-solvers.

Encore Adventure

Take the stage in Encore Adventure! Students will discover the power of music, drama, and expression. They will collaborate to write, perform, and produce original works that showcase their unique voices.

Creator's Adventure

The Creator's Adventure is all about imagination in action. Students will tinker, build, and create projects that blend art, technology, and invention. Whether crafting models, designing products, or exploring new materials, students will bring bold ideas to life.

Discovery Adventure

Curiosity sparks every moment in Discovery Adventure! Students will become scientists and explorers as they investigate the world around them through experiments, observation, and inquiry. Curiosity fuels every question and every great discovery begins here.
