

Indicate Your Enrollment Decision and Request a Final Transcript

Congratulations, you did it!! You made it to the final step in the college application process: enrollment.

Deciding where you want to attend college isn't an easy decision, but now that you've made it, it is important that you indicate your enrollment decision in SchoolLinks. Doing so will let your counselor know where to send your final transcript.

Manage Enrollment Decisions

You can manage your enrollment decisions from the Enrollment Decisions tab in the Colleges module. From this page, you can view, comment on, or remove your existing decision. Additionally, SchoolLinks supports adding multiple enrollment decisions if you are pursuing dual enrollment or attending community college programs.

- Click the Pencil icon on an existing decision to view the application requirements page, and the Comment icon to leave a comment for your counselor.
- Click the Trashcan icon to remove your existing decision. Removing a decision will remove the final transcript request for that school if it has not already been fulfilled by your counselor.

Indicate Your Enrollment Decision and Request a Final Transcript

- To add a second enrollment decision for dual enrollment purposes, click the Enrollment Decision button at the top right. Then click continue to confirm that you are intending to enroll in more than one school.

- Follow the Indicate Enrollment steps from above to add an additional enrollment decision.
