**Explore endless possibilities
with Camp CMS summer
enrichment programs.**

Welcome to Camp CMS 2026!

Our CMS Summer Camp program is specifically designed for invited students to strengthen academic foundations and build the skills needed for grade-level success. These sessions will be led by experienced teachers and support staff who are committed to creating a safe, nurturing, and enriching environment to prepare students for the 2026- 2027 school year.

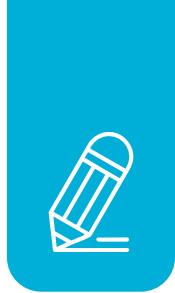

In addition, our After School Enrichment Program (ASEP) summer camp is open to all students, providing even more opportunities for fun and learning.

This guide offers an overview of all CMS Summer Camp programs and activities available this year. We encourage families to review the information together and talk with their children about their interests and goals for the summer.

If you have questions or need further assistance, please contact your student's current school. We hope your family will take advantage of these summer learning opportunities, and we look forward to welcoming your students this July.

Extended School Year (ESY) Opportunities

Students with disabilities who qualify for extended school year (ESY) services will have the opportunity to attend the following sites:

Charlotte-Mecklenburg Academy

This site will be available for students receiving ESY who currently attend CMA, students on the standard course of study, students within the extensions program (who do not need the use of a modified bathroom), and OCS students needing work hours toward graduation.

Cluster Site (TBD)

We will be utilizing an elementary, middle, and high school location in close proximity of each other to support students within the extensions program for extended school year.

E.E. Waddell High School

This site will be available for students receiving ESY on the standard course of study, students within the extensions program (who do not need the use of a modified bathroom), and testing for students that needs to be completed during the summer.
