# Farias Elementary School 2024-2025 Executive Summary

## **Demographics Summary:**

As of August 2025, Farias' total enrollment consists of 518 students. Our subpopulations are 16% Special Education, 52.1% Emergent Learners, 3.3% Gifted and Talented, and 97.7% At Risk. The majority of our students are of a Hispanic background at 99.9%, so most of the student's home language is Spanish. In addition, Farias' attendance is consistently between 90-92%. Our students live in the Alamo area, encompassing the surrounding area.

## **Comprehensive Needs Assessment Summary:**

In combination with Domains I, II, and III, Farias Elementary School earned an C report card grade. In Domain I, the overall scaled score was C(=74%). Approaches were at 67%, Meets was at 34%, and Masters was at 13%. Farias received a C rating In Domain II, Part A, we earned a scale score of 75% with a rating of C. In part B, we achieved a scale score of 73% with a C rating. In addition, we surpassed the target score of 49% with 66% for TELPAS.

## **Curriculum and Instruction and Assessment:**

Zeferino Farias Elementary offers a rigorous curriculum with highly qualified staff. Students at our campus have the opportunity to participate in an all-English Class or Bilingual One-Way Program. On a voluntary basis, teachers offer various clubs, UIL, and extracurricular activities to our students. We are a Leader In Me; Lighthouse Campus empowers our students with SEL foundations through the 7 Habits of Happy Kids curriculum. Students have the opportunity to develop a unique approach to student-led learning and apply effective social and emotional skills in real-life situations. Students needing academic support are offered tutoring before or after school and Saturday Academies. In addition, teachers use Madeline Hunter's lesson plan model to develop, implement, and revise lessons in the core areas of math, reading, science, and social studies. Lesson plans are designed to intentionally include the curriculum instructional strategies (CIF) to improve students' reading, writing, listening, and speaking skills. The think, pair, share, and write is another strategy to be implemented by all teachers, including support staff.

Moreover, because of many ELLs, vocabulary and annotation will be a focus in all classes to assist students in acquiring the English language and comprehension. We also implement Fluency Reading in all grade levels. In the lower grade levels, teachers keep track of cold reads and hot reads for all students. In the upper-grade classes, we focus on students in need of reading fluency and comprehension.

### Summary of Goals:

To increase success in Domain I, we will implement reading and writing across the curriculum, including support staff. Special needs students will also be targeted through tutoring, academies, and in-class instruction to increase the performance of these students. The overall percentage of students in meets and masters level must improve in all areas; the majority are performing at the approaches level. In Domain II, our goal is to have every teacher conference with every individual and provide students with their target score for growth in math and reading. Although math scored higher in Domain I than ELA, students met their growth in reading, meeting all their growth indicators. Math needs to increase the number of students who meet goals for change in the non-continuous enrollment indicator. And last, Domain III, overall, the gap between the all student group and the economically disadvantaged population is low. We must increase the percent of students receiving meets or masters in areas, especially in the areas of non-continuously enrolled. Moreover, to assist students with their academic needs and personal needs, we implement Social and Emotional Learning once a week.

## Farias Elementary School Vision

Every Zeferino Farias Elementary student will become a productive citizen and compete intellectually and emotionally by applying 21st-century skills to prosper in a global community.

## Farias Elementary School Mission

Zeferino Farias Elementary teachers and staff will provide rigorous, relevant, innovative instruction, social and emotional support and prioritize health and safety for all. As future leaders, every student will be prepared for college and future careers and compete and succeed in a global community.

## Zeferino Farias Elementary *BELIEFS STATEMENT*

*We believe that learning is ongoing, fun, and a challenging life-long process that should take place in a warm, suitable environment.*

*We believe that parents should provide a supportive environment that teaches positive attitudes, habits, and values. They should become actively involved with the educational decision-making process.*

*We believe that a quality instructional program includes: committed school personnel, as well as the community and parents working together to provide a curriculum that is current and meets the needs of every individual child.*

*We believe that the community should actively participate in the educational process by supporting the school in all areas. They should serve as positive role models and should make education a priority.*

## Farias Elementary School Comprehensive Needs Assessment

### **Demographics**

#### **Demographics Summary:**

#### **English Language Learners (ELL):**

The following sources from across the district were used to review the Dual Language/English as a Second Language (DL/ESL) Department data by the District Education Improvement Council: State of Texas Assessments of Academic Readiness (STAAR) results, Performance-Based Monitoring Assessment System (PBMAS) and TELPAS indicators to determine strengths and needs of our ELL students. The DL Department also worked closely with the human resource department to ensure that highly qualified teachers and instructional assistants were recruited, hired, and placed in the appropriate educational setting. Each curriculum and instruction central office administrator by campus type was also assigned an English Language and Spanish Language Development coach to enhance biliteracy. In addition, the DL Department was very involved in the curriculum writing and revision for grades K-12 during the summer to address the needs of our ELL students and align the curriculum between English and Spanish Language Arts which led to a more coherent and consistent bi-literacy program. Professional development was also coordinated with the curriculum and instruction department to ensure that all general education teachers utilize best practices that support the learning of ELL students.

#### **Needs:**

As evidenced in the STAAR assessments, the results show an achievement gap as follows:

- In 2025, Farias Elementary School attained a 41% meets performance on the reading STAAR Test.
- In 2025, Farias Elementary School obtained a 31% meets performance level on the math STAAR Test.
- In 2025, Farias Elementary School dropped 7% points in the overall performance in math STAAR Test.

## Demographics

### Demographics Summary:

#### Economically Disadvantaged

The following sources from across the district were used to review the Economically Disadvantaged data by the District Education Improvement Council: State of Texas Assessments of Academic Readiness (STAAR) results and System Safeguards to determine strengths and needs of our Economically Disadvantaged Students.

#### Needs:

System Safeguards Data: As evidenced in the STAAR assessments, the results show an achievement gap as follows:

- In Reading, the achievement gap between EL and All students at the Meets Level in the school year 2024-2025 is 1 %.
- In Mathematics, the achievement gap between EL and All students at the Meets Level in the school year 2024-2025 is 0 %.
- In Science, the achievement gap between EL and All students at the Meets Level in the school year 2024-2025 is 0 %.
