GEE HAS WATER!

BY: VICTORIA

The plumbing in Gee broke around three weeks ago, and the campus has been severely affected by it. However, as of Monday, November 17th, the plumbing has been fixed and the bathrooms are usable again! Parts of the campus are still off-limits, and we can only enter the Gee building through its south side. Presuming it will stay like this until they fix up the campus, we will have to go to our classes through the South side. Let's hope we can get back to normal soon. Please make sure to thank the workers for fixing our campus when you see them around!

CLUB SPOTLIGHT - TECH TEAM

BY: HAVEN

This week's club spotlight is Tech Team! If you've ever walked into school and noticed the TV that spotlights things like birthdays of the month, students, and important upcoming events, you can thank the Tech Team for that! The next time you go to class, see if you can spot the pickle that's hidden somewhere in one of the slides. Another thing that we can thank the Tech Team for is creating the senior video that's shown at graduation, which is something that makes graduation incredibly special. Lastly, the Tech Team works hard with Journalism to create videos like the recruitment video that's shown to 8th graders each year! Next time you see a Tech Team member in the hallway, be sure to thank them for making this school special.
