

Eureka!

GRADE 7-9

CENTER-BASED PROGRAM + CAMP

Eureka! is a multi-year STEM program for girls beginning summer before 8th grade combining hands-on learning with personal development and college and career exploration. Eureka! builds confidence, strengthens leadership skills, and gains real-world exposure to science, technology, engineering, and math.

Each summer, Eureka! girls take part in a 4-week **STEM Camp** (*underclassmen*) or a 4-week **Paid Internship** (*upperclassmen*). During the school year, they stay engaged through monthly workshops and field trips, all within a supportive cohort of peers and mentors. Eureka! empowers girls to dream big and boldly pursue their future as future leaders in STEM.

REQUIREMENTS TO JOIN EUREKA!

- Currently enrolled in 7th-9th grade
- Is interested in exploring STEM
- Submits a registration (QR code)

This program is perfect for girls who are looking to gain a competitive edge on future scholarships and college applications!

The goal of Eureka! is for all Eureka! girls to enroll in a post-secondary STEM program and pursue a career in a STEM field.
