Duquesne City School District Educational Technology Privacy & Transparency Notice

The Duquesne City School District is committed to protecting the privacy, security, and integrity of student and staff data across all digital platforms used within the District.

To support this commitment, the District maintains a publicly accessible TrustEd Apps Management Suite (TAMS) dashboard, which is available on the District's website. This resource provides a centralized, transparent listing of all digital applications, platforms, and systems used within the District, along with direct access to each vendor's privacy policy and related compliance documentation.

This dashboard has been developed to:

- Provide families, staff, and stakeholders with visibility into the digital tools used for instruction and operations;
- Ensure accountability in the evaluation and approval of educational technology;
- Demonstrate compliance with applicable federal and state regulations, including the Children's Online Privacy Protection Act (COPPA), the Family Educational Rights and Privacy Act (FERPA), and other relevant data protection standards

Each application listed within the TAMS dashboard is categorized based on its approval status and intended use within the District:

- Approved (Core): Core systems essential to daily instructional or operational use;
- Approved: Supplemental tools approved for general use;
- Under Review: Applications currently undergoing privacy and compliance evaluation;
- Approved (Limited): Approved tools deployed to a specific group or limited audience;
- Approved (Staff Only): Systems restricted to District staff use;
- Denied: Applications not approved due to privacy, security, or compliance concerns;
- Internal App (Staff Only): District-hosted systems accessible only to staff;
- Internal App (Staff & Students): District-hosted systems accessible to staff and students;
- Sunsetting: Applications scheduled for discontinuation;
- Revoked: Applications removed from use due to compliance or security concerns

The District conducts ongoing reviews of all applications to ensure continued compliance with privacy laws and alignment with educational objectives. Applications may be reclassified, restricted, or removed as part of this continuous evaluation process.

We encourage parents, guardians, and community members to review the TAMS dashboard to better understand the digital tools used in our schools and the safeguards in place to protect student information.

To access the public TAMS dashboard, please visit the District website.

Questions or concerns regarding student data privacy or specific applications may be directed to the District's Information Technology Department.
