Vision of Texas School Libraries:

Texas school libraries are essential interactive collaborative learning environments, ever evolving to provide equitable physical and virtual access to ideas, information, and learning tools for the entire school community.

Mission of Texas School Libraries:

Librarians and trained staff nurture a culture of literacy and inquiry throughout the school community. An integral part of instructional teams, librarians are teachers who collaborate with teachers on curriculum design and delivery. They maintain a professionally developed collection of print and digital materials and assist learners in locating resources that match their academic and personal interests. Librarians model and teach information literacy and digital citizenship, empowering learners to make ethical, informed choices in an increasingly complex and evolving global environment.
