Angelica Lions Club Award

Angelica Lions Club is a community service organization that provides financial support and service time to our community and surrounding areas. We believe those that serve their community while young will continue doing so as adults. Our awards are given to Genesee Valley students that have proven they are dedicated to community service.

Describe the community service you have participated in. Please include a description of the service, an approximate number of hours dedicated to the service and what you have learned through these community activities. ****This is an award, not a scholarship. You do not need to go on to higher education to receive this award.
