Feedback in March

- a. Parent-Teacher Conferences - liked the process, opportunity to meet w/ teacher is appreciated, perhaps should be student led/directed
- b. Winter Awards- positive, but some folks did not get emails
- c. Apptegy - Adams 12 App (When you need to communicate with a teacher from your student's courses, do you email or use the app?) Positive- use during a trip, aggregated different kids info in one spot, makes getting ahold of teachers/ extracurricular easier. Like the extracurricular posts/ pics, etc. How can kids use it when they should not have their cell phones?
