Introduction and Overview of CIP

I. Introduction and Overview

The Anchorage School Board is responsible for ensuring adequate educational and operational facilities for the students and staff of the Anchorage School District. To fulfill this obligation, the school board regularly engages in comprehensive long-range planning of school facility construction, renovation, and maintenance. On an annual basis, the school board adopts a Six-Year Capital Improvement Plan (CIP) that addresses capital needs, anticipated levels of student enrollment and municipal planning efforts. The CIP delineates the district's construction priorities over a six-year period.

The steps in preparing and approving the Six-Year CIP are listed below:

1. Review school board guidance and policy regarding capital planning.
2. Survey all principals to determine space utilization.
3. Collaborate with local demographer to determine enrollment projections by school and grade.
4. Receive administrative recommendations regarding capacity & membership projections.
5. Evaluate the Facility Condition Assessment Program (FCAP) to identify, validate and prioritize aged-out facility systems.
6. Collaborate with the municipality planning department to determine short and long range educational facility needs.
7. Present CIP to the Municipal Planning and Zoning Commission for recommendations.
8. Present CIP to the Superintendent and school board for approval.
9. Transmit adopted Six-Year CIP to the Anchorage Assembly and to the State Department of Education and Early Development (EED).

This document is divided into four major sections:

- School Facilities
- Capital Improvement Recommendations
- Student Membership Summary
- Current Facilities Utilization

The Six-Year Capital Improvement Plan is a thorough, good faith document intended to convey the Anchorage School District's planned, future investment in its infrastructure. The plan is assessed annually and is subject to modification based on evolving educational needs, changes to facility conditions within the district, and other environmental factors (to include bond passage, budgetary matters, and demographic changes) that influence priorities and contribute to a more informed six-year investment plan.

School Facilities

II. School Facilities

The Anchorage School District (ASD) operates and maintains one of the largest physical plants of any public entity in the state, with over 7.8 million square feet worth over \$2 billion. The district has 90 facilities; 84 schools and 6 support facilities. There are 10 alternative and charter school programs that utilize leased facilities. The district houses approximately 42,600 students and more than 5,700 staff members. Currently the district is developing a Rightsizing plan that considers school closures, repurposing, and boundary revisions for the School Board to consider and approve for implementation. Final decisions will be included in future CIPs.

ASD has 25 (preK-5) and 31 (K-5) elementary schools, one preK-8 and one K-8 schools (table A). Aurora, Orion, Ursa Major and Ursa Minor elementary schools are located on Joint Base Elmendorf Richardson (JBER). Due to declining enrollment, Mt. Spurr closed at the end of the 2018-19 academic year. Ursa Major was closed in 2021-22 due to structural issues; however a replacement school is planned. Abbott Loop was closed in 2023 and repurposed as the Alaska Native Cultural Charter school (ANCCS). Lake Hood and Nunaka Valley were closed in 2024 and repurposed as ANCCS and STrEaM Academy Charter School, while Rilke Schule moved into the Abbott Loop facility.

ASD has 10 middle schools grades 6-8 and eight high schools grades 9-12 (table A). The District transitioned seven middle school grades 7-8 to 6-8 at the start of the 2024/25 academic year.

ASD has 8 charter schools and 11 alternative schools (table A).

Special Education services are offered in all elementary and secondary schools in the district. Some schools support self-contained programs for students with more significant disabilities who require this type of setting. Tyson, Kasuun, Baxter and Whaley School, are dedicated to serving students with significant disabilities that require intensive behavior support. The district also provides services at our Alternative Career Education (ACE) and Adult Community Transition (ACT) programs for students 18 – 22 who require continued transition services.

In addition, the district operates three state contract programs: Alaska State School for the Deaf and Hard of Hearing, Providence Heights, and McLaughlin. The district also operates special educational programs for students in eleven short and long term residential facilities: Bragaw Heights, Cordova Heights, DeBarr Heights, Humphrey Heights, Jesse Lee Home, Maplewood, McKinley Heights, Piper Heights, Providence Heights, Puffin Heights, and Turning Point Heights.

Capital Improvement Needs

Capital Improvement
Needs

III. CAPITAL NEEDS

The Anchorage School District operates and maintains 90 facilities; 84 schools and 6 operational facilities. The average age of district facilities is 40 years. There are 38 facilities over 50 years old, including 19 facilities that are 60 years or older.

To properly identify and prioritize requirements across such a large physical plant, the district has implemented an integrated Facility Condition Assessment Program (FCAP). In 2009, the district initiated the development of an asset management system to assist in capital planning. Information was collected by Architect and Engineer teams during facility condition assessments utilizing a systematic and consistent methodology. Facility condition assessments have been completed for all district-owned facilities. Additionally, educational program assessments have been completed for all schools except the King Tech High School. Facility assessment data is updated routinely as facility condition assessment and construction projects are completed.

Educational program requirements are defined by districtwide educational specifications for elementary, middle and high schools. An Educational Adequacy Index (EAI) determines the ability of a school to meet educational program requirements by evaluating the quantity, configuration, size, and existence of spaces defined by the district's educational specifications. For example, a school may not have enough classrooms to offer health classes, or lack a gymnasium in addition to a multi-purpose room in order to facilitate concurrent lunches and physical activity. The EAI for a facility is calculated by dividing the cost to correct the educational specification deficiency by the replacement cost of the facility. The higher the EAI, the greater the level of educational inadequacies of the facility compared to ASD education specifications.

A Facility Condition Index (FCI) is also calculated to determine a facilities relative condition and estimates the investment cost needed to address aged-out facility systems. It is a percentage index derived from dividing the cost to replace "*like*" aged-out building component/systems by the facility's replacement cost. The higher the FCI, the greater the level of investment needed to sustain/renew the facility. The FCI can also be applied districtwide to measure the condition and

determine the level of annual investment needed to sustain/renew the district's capital infrastructure.

According to the national standard, an FCI less than .05 is considered "Excellent", .05-.10 is considered "Good" and .10-1.0 ranges from "Fair to Poor". With an estimated ~\$2 billion Current Replacement Value (CRV) and ~\$1.369B of deferred unfunded sustainment backlog, the current districtwide FCI is ~0.36.

Best practice within the facility management industry is to re-invest 4% of the CRV annually into capital projects. These projects can be broken down into three categories: Periodic Renewals (2%), As-Needed Alterations (1%) and Systematic Reduction of Deferred Requirements(1%), figure 1. For the ASD, this would equate to \$80M/year; \$40M for Periodic Renewals, \$20M for As-Needed Alterations and \$20M for Systematic Reduction of Deferred Renewals.

Figure 1. National Standard for Facility Investment

Source: 2021 State of Our Schools Report; America's K-12 Facilities; 1st Century School Fund, Inc., U.S. Green Building Council, Inc., and the National Council on School Facilities

The FCAP centralizes information on the district's facility system conditions (FCI) and educational specification deficiencies (EAI). This information is reviewed and validated during routine facility assessments by utilizing systematic, consistent, and

repeatable methodologies. The FCAP serves as the basis to determine capital needs, priorities, educational inadequacies, capital costs and is used to develop short and long term capital planning and funding strategies for the district. Current and forecasted FCAP requirements and costs will be evaluated and prioritized annually based on the following criteria:

- **Category I-1 thru I-3:** year one requirements that address life safety, security, legal compliance, repair damaged/deteriorating facility to prevent loss of the facility, avoid high-cost emergency repairs and capitalize on rapid energy savings
- **Category II-1 thru II-3:** year two requirements that address educational program priorities, repairs less compelling than Priority I and deferred repairs that will lead to a loss of facility, hamper educational program or affect efficient operations
- **Category III-1 thru III-4:** year 3-5 requirements that address facility or site improvements necessary for proper functioning, economic maintenance & suitable appearance of new construction left uncompleted because of inadequate project funding, delayed deferred maintenance that can be postponed, anticipating actions for long-range planning and delayed to be combined with a future project.

Facility condition and educational program assessments highlight the following key considerations of sustaining the district's physical plant.

Building Component Life Cycle: Facility systems only last so long. Roofs deteriorate and leak; heating, plumbing, and ventilation systems wear out; and structural systems age. As components age-out, their reliability exponentially decreases and exposes maintenance and operational budgets to more emergency expenditures and increases the risk of impacting educational programs.

Functional Obsolescence: Over the life of a school, programmatic changes take place that demand updating the facility infrastructure. Current educational delivery methods require more technology and physical layouts that are often different and more flexible than those of 30 to 40 years ago. Additionally, various code changes require updating structural, electrical mechanical systems and improving accessibility for persons with physical disabilities. Moreover, significant renewals

often require structural upgrades to meet more stringent seismic codes. Overall, schools are considered for replacement after 50 years of service.

Capacity: The ASD is the largest school district in the state, and while overall enrollment has been in decline in recent years, the geographic distribution of students continues to shift due to the mobility of the state/city population. In order to meet short-term over-capacity situations, the district has 82 relocatable classrooms. However, the District will proceed in optimizing District facilities.

Capital Improvement Recommendations: 2026–32

IV. CAPITAL IMPROVEMENT RECOMMENDATIONS:

The recommended six-year capital improvement projects, short description and their estimated project costs are reflected in Table 1. Projects funded through alternative means are also included in Table 1.

Initial project cost estimates are based on Fiscal Year 2024 DEED Cost Model with 7% inflation adjustments for years two through six. Adjustment to these cost estimates may be made in future years to accommodate fluctuations in construction costs and scope of work identified during initial planning or design stages of the projects.

The six-year CIP was developed through collaboration with municipal planners and extensive data-driven analysis. The plan considers board guidance and policy. This plan takes a more aggressive approach in addressing the district's deferred sustainment requirements, foregoes un-necessary large-scale renewals through the state's moratorium on debt reimbursement and addresses the district's top educational program priorities. The District is currently looking at optimization of space within District facilities, to include adjustment of school attendance boundaries, school closures and consolidations, repurposing, and review of current open-enrollment policies.

Table 2 identifies the agency coordination required for developing property currently managed by the district. Table 3 summarizes information from the FCAP.

**Table 1: Capital Improvement Plan
2026 - 2031**

Year 1: 2026				
District Priority	Project Title & Description	Bond Amount	Estimated Debt Reimbursement Amount	Comments
1	Romig Middle School Building Upgrades Phase 1 - Construction phase of the design approved in the 2024 Bond and approved master plan.	\$ 27,350,000	\$ 13,675,000	
2	Lake Otis Elementary Building Improvements - Building improvements per the approved Project Analysis Report.	\$ 19,585,000	\$ 9,792,500	
3	Klatt Elementary School Structural Upgrades - Upgrade existing structural deficiencies with newer structural upgrades.	\$ 2,800,000	\$ 1,400,000	
4	Tudor Elementary School Secure Vestibule and Renovation - New secure vestibule, roof and remediate truss structural issues	\$ 8,550,000	\$ 4,275,000	
5	Access Control at 15 School Phase 2 - Installation of access control for 15 schools that has had Secure Vestibules installed prior to adoption of ASD standards for access control.	\$ 2,000,000	\$ 1,000,000	
6	Student Nutrition Facility Upgrades Phase 1 - Upgrade Student Nutrition building and systems to replace older systems and accommodate updated food preparation.	\$ 8,500,000	\$ 4,250,000	
7	Bettye Davis High School Electrical Service and Standby Upgrades - Upgrade older high voltage ASD owned electrical service. The project will replace the service to a Chugach Electric owned service and upgrade stand-by generator system.	\$ 1,750,000	\$ 875,000	
8	Ursa Major Elementary School Demolition & Hazardous Materials Disposal - Discovery of hazardous materials within building envelope resulted in additional demolition and disposal costs.	\$ 5,400,000	\$ 2,160,000	
9	Planning and Design for 2027/28 Projects	\$ 3,525,000	\$ 1,762,500	
	TOTAL	\$ 79,460,000	\$ 39,190,000	

**Table 1: Capital Improvement Plan
2025 - 2030**

Year 1 Non-Bond Projects: 2026		
Project Title & Description	Amount	Comments
Student Nutrition Facility - Condition Survey	\$ 250,000	Long range planning (re-allocated 2020 bond design funds)
Facility Support Center - Condition Survey	\$ 250,000	Long range planning (re-allocated 2020 bond design funds)
Bear Valley Elementary School Generator Phase 1	\$ 14,637	FEMA Hazard Mitigation Grant Program; Phase 2 Funding earmarked pending final cost estimate.
Creekside Elementary School Generator Phase 1	\$ 95,018	FEMA Hazard Mitigation Grant Program; Phase 2 Funding earmarked pending final cost estimate.
Facility Support Center Tier 2/3 Seismic	\$ 68,250	FEMA Hazard Mitigation Grant Program
Ocean View Elementary School Tier 2/3 Seismic	\$ 58,800	FEMA Hazard Mitigation Grant Program
Williwaw Elementary School Tier 2/3 Seismic	\$ 48,300	FEMA Hazard Mitigation Grant Program
Romig Middle School Window Replacement Phase 1	\$ 92,509	FEMA Hazard Mitigation Grant Program; Phase 2 Funding earmarked pending final cost estimate.
Baxter Elementary School Tier 2/3 Seismic	\$ 60,900	FEMA Hazard Mitigation Grant Program
Wendler Middle School Tier 2/3 Seismic	\$ 117,600	FEMA Hazard Mitigation Grant Program
North Star Elementary School Generator Phase 1	\$ 18,165	FEMA Hazard Mitigation Grant Program; Phase 2 Funding earmarked pending final cost estimate.
Service High School Tier 2/3 Seismic	\$ 126,000	FEMA Hazard Mitigation Grant Program
Bowman Elementary School Playground and Site	\$ 1,900,000	ASD Memo #045 (2025-26)
Fairview Elementary School Childcare Renovations	\$ 190,000	Kids Corp, Inc. - MOA Grant
Districtwide Facility & Educational Adequacy Re-Assessments	\$ 750,000	ASD Memo #131 (2024-2025)
	\$ 4,040,179	

**Table 1: Capital Improvement Plan
2026 - 2031**

Year 2: 2027				
District Priority	Project Title & Description	Bond Amount	Estimated Debt Reimbursement Amount	Comments
1	Bartlett High School Renovation Phase 1 - Initial phased renovation of Bartlett High School per the approved master plan approved by the board in 2024.	\$ 37,875,000	\$ 18,937,500	
2	Transportation Center Phase 1 -Phased renovation of the districts student transportation facility. Including vehicle maintenance area, structural upgrades, mechanical, and electrical systems.	\$ 5,500,000	\$ 2,750,000	
3	Chinook Elementary School Playground Upgrades -Upgrades to existing playground including addition of a pre-kindergarten playground and upgrading playgrounds to "Universal Usage" design.	\$ 1,800,000	\$ 900,000	
4	Williwaw Elementary School Building Improvements - Includes Roof, Seismic/ Structural, Mechanical, Electrical, Finishes, and Educational Adequacy. Per Project condition assessment.	\$ 5,800,000	\$ 2,900,000	
5	Fairview Elementary School Renovation - Renovation of the old administration area, new roof, playground upgrades to "Universal Use", and educational upgrades per condition assessment.	\$ 7,500,000	\$ 3,750,000	
6	Facility Support Center Upgrades Phase 1 - Initial phased renovation including vehicle maintenance spaces, structural, mechanical, and electrical. Per recently completed condition assessment and conceptual design.	\$ 9,800,000	\$ 4,900,000	
7	Bayshore Elementary School - Playground replacement to include "Universal Usage" and increase safety and visibility. Also included is renovation of bus and staff traffic to improve safety.	\$ 1,800,000	\$ 900,000	
8	Planning and Design for 2028/29 Projects	\$ 3,465,000	\$ 1,732,500	
	TOTAL	\$ 73,540,000	\$ 36,770,000

District Priority	Project Title & Description	Bond Amount	Estimated Debt Reimbursement Amount	Comments
1	Secondary Schools Security Upgrades - Develop a districtwide plan for safety and security for districts secondary school. Including implementation and construction.	\$ 18,500,000	\$ 9,250,000	
2	Service High School Roof and Structural - Upgrade to the roofing, roof structure, and improve energy efficiency.	\$ 11,250,000	\$ 5,625,000	
3	1990 Prototypical Roof Upgrades - Continued improvements to the 1990s prototypical elementary schools roof design.	\$ 15,000,000	\$ 7,500,000	
4	Ravenwood Elementary Building Improvements - Includes Roof, Seismic/ Structural, Mechanical, Electrical, Finishes, and Educational Adequacy. Per approved Project Analysis Report.	\$ 15,475,000	\$ 7,737,500	
5	Wonder Park Elementary School Renovation - Project includes design and construction for Secure Vestibule, safety and security, educational adequacy, renovate open concept classrooms, mechanical, and electrical.	\$ 9,500,000	\$ 3,800,000	
6	Steller Secondary School Roof and Structural - Upgrade to the roofing, roof structure, and improve energy efficiency.	\$ 2,100,000	\$ 1,050,000	
7	Planning and Design for 2031/32 projects	\$ 3,645,000	\$ 1,822,500	
	TOTAL	\$ 75,470,000	\$ 36,785,000	

**Table 1: Capital Improvement Plan
2026 - 2031**

Year 6: 2031				
District Priority	Project Title & Description	Bond Amount	Estimated Debt Reimbursement Amount	Comments
1	Mears Middle School Building and Site Improvements - Upgrade interior systems for educational adequacy, mechanical, and electrical. Also includes improvements to site conditions including athletic areas.	\$ 18,800,000	\$ 9,400,000	
2	Hanshew Middle School Building Improvements - Improvements to roof, structural, educational adequacy, mechanical, electrical, and site per developed condition assessment.	\$ 22,855,000	\$ 11,427,500	
3	Facilities Support Center Phase 2 - Continued renovation including non-compliant site, grounds equipment protection and planning for final phase of renovation.	\$ 12,600,000	\$ 6,300,000	
4	Creekside Elementary School Roof and Structural - Upgrade to the roofing, roof structure, and improve energy efficiency.	\$ 3,560,000	\$ 1,780,000	
5	Chugach Optional Elementary School Roof and Structural - Upgrade to the roofing, roof structure, and improve energy efficiency.	\$ 3,000,000	\$ 1,500,000	
6	Denali Montessori School Roof and Structural - Upgrade to the roofing, roof structure, and improve energy efficiency.	\$ 3,560,000	\$ 1,780,000	
7	Wendler Middle School Roof and Structural - Upgrade to the roofing, roof structure, and improve energy efficiency.	\$ 6,260,000	\$ 3,130,000	
8	Planning and Design for 2032/33 Projects	\$ 3,500,000	\$ 1,750,000	
	TOTAL	\$ 74,135,000	\$ 37,067,500

- Original Construction - Year the facility was built
- Last Major Improvement - Most recent year that a significant improvement was made on the facility
- Square Footage - Facility size based on gross square feet
- EAI Evaluation Model - Designation of metric utilized for the facility's educational assessment of instructional spaces. Unless noted "Special", model is based on Districtwide Educational Specifications (Draft 4/2011) adjusted to population trends, or existing Master Plans.
- Deficiency EAI - A percentage index derived from dividing the cost to correct instructional space's deficiencies by facility's replacement cost
- Missing Spaces EAI - A percentage index derived from dividing the cost to provide the missing instructional space by facility's replacement cost
- Total EAI - A percentage index derived from the summation of the Deficiency EAI and Missing Space EAI
- FCI - A percentage index derived from dividing the cost to correct building component/system needs by the facility's replacement cost

* The % Capacity is adjusted for half-time day programs for SAVE and Benny Benson.

Yellow shade: EAI and FCI to be updated upon project completion

Membership Projections Summary

V. **Membership Summary: 2026 to 2031**

Forecasting Methodology and Assumptions: The principal method used to project the 2026 through 2031 enrollment is an econometric model which combines cohort-survival technique with a GIS-enabled database of school age children based on PFD data. For each school and grade there is an underlying statistical relationship derived from comparing historic enrollment with historic cohort survival and PFD counts. Cohort survival accounts for historical retention trends for each individual school and grade. Counts of eligibility based on PFD data aid projections when cohorts have not matriculated into the district, and historical enrollment data is unavailable.

After running initial statistical models, results for each school and grade level projection are assessed to ensure that the results are supported by underlying historical patterns or, if there is a change in pattern, that the change is supported by shifting demographic or economic factors.

ASD projections contained in this document do not reflect the impact of any major events occurring in the next six years that would be considered speculative: major projects that would boost population, closure or expansion of military installations, or major changes in the state's economic or political structure. Further, it is assumed that oil and mineral exploration will continue in Alaska throughout the decade, other industry and commercial sectors in Anchorage will continue to track overall economic activity levels, and employment levels will affect ASD membership.

During the spring 2019-2020 school year, the COVID-19 global pandemic was declared in the United States. The State of Alaska and Municipality of Anchorage immediately issued mandates to slow the transmission of COVID-19. Due to the ongoing pandemic, the District experienced an unprecedented reduction in student enrollment at the beginning of the 2020-2021 school year. While enrollment increased in the two years after, the long-term downward trend in enrollment resumed in 2023-2024 and is expected to continue over the current forecast period. Additionally, the District Administration acknowledges that 6-year membership projections represent declining enrollment accelerated by the pandemic.

Past Enrollment: From fall of 2019 to fall of 2020, the Anchorage School District experienced a decline in enrollment of over 4,200 students as a result of COVID-19. This decline followed several prior years of declines, and after an increase in fall 2022 enrollment, 2023 enrollment was down by almost 900 from 2022 and down by 1,670 total over the next two years. Several factors are thought to be driving the longer-term losses:

- U.S. Unemployment: When jobs are abundant in the contiguous United States, net outmigration from Alaska generally increases. There have been six other instances

from 2000 to 2025 when enrollment declined by over 600 students ('06, '07, '13, '17 '18, '19, and '20). During 2006 and 2007 enrollment lows, the U.S. unemployment rate was also remarkably low. In 2019, U.S. unemployment stayed low, below 4 percent for much of the year. U.S. unemployment remains low today;

- **Alaska's Recession and Population:** Alaska's recession was thought to have ended in 2019, though the pandemic put it back into recession in 2020. While employment has recovered, economists saw the three years of slow employment growth as recovery toward pre-pandemic levels;
- **Anchorage's Aging Population:** Anchorage's population is aging, its population has been declining overall, and the population associated with school age children has been declining. Over the last decade, Anchorage School District's enrollment as a percentage of the Municipality of Anchorage's total population has been steadily declining. Outmigration as well as a declining share of the total population has been driving lower enrollments;
- **Correspondence Schools:** There has been an increasing trend of transfers from the ASD into statewide correspondence programs since the 2015–16 school year, and the PAIDEIA Cooperative school changed from a Charter program to an Alternative program in FY2018-19. Expansion of homeschooling options and interest as a result of the pandemic has shifted some students away from traditional education.

2026 to 2031 Enrollment Projections

Barring significant improvements in Alaska's economic landscape and/or a weakening U.S. employment picture, we expect moderate net student losses to continue into 2025 because of the negative and positive drivers detailed below:

- annual declines in births, with 28 fewer 2026–27 qualifying births reported compared to 2025-26 figures;
- a general decline in past enrollment since the late 2000s;
- 533 fewer school age Anchorage PFD applications in 2025 than in 2024, and 79 fewer applicants that will become school age in the next one to four years;
- Anchorage's population loss due to out-migration, resulting in an estimated 2024 population that is 882 lower than it was in 2023 and 6,433 lower than it was in the 2020 Census. (The 2024-2025 population and migration estimates are not yet published.)

Elementary school estimates show an decrease in 2026 and beyond, with the change accelerating over time. Enrollment is projected to experience a steeper and more steady decline than expected last year, with a total decline of 21.76%.

Note: Does not include alternative, charter, or special schools.

Middle school projections show an increase through 2027, a period of stability through 2030, and a decline in 2031. Enrollment is projected to peak in 2027 (up 3.8% from 2025 levels) and then decline starting in 2030, ending the period nearly unchanged (up 25 students) from 2025.

Note: Does not include alternative, charter, or special schools.

High schools are expected to see an increase in 2026, followed by a dip through 2029, an increase in 2030, and then a decline. Over the period, high school enrollment is expected to drop by 184 students (-1.8%) from 2025 to 2031.

Senior High Sept 30 Projected Enrollment

Note: Does not include alternative, charter, or special schools.

The net effect across all grades is a gradual decline through the fall of 2031, averaging 2.1% each year.

Note: Includes all schools, all grade levels (pre-elementary through 12), and special programs.

Decreased enrollment in schools could drive decreased classroom and staff requirements for most grades over time, continuing the trend seen since 2012.

The enrollment projections are a base case that considers past student enrollment, birth data, and school age PFD applications. Overall employment in Anchorage has increased in each of the last three years, but June 2025 employment was more than 1,100 jobs

(0.7%) higher than it was in June 2024. It is still not fully known how the current economic climate will affect the school age population. The district will continue to monitor employment and enrollment trends, updating projections if a significant deviation from current trends begins to occur.

Note: Intensive special ed students are included.

Current Facilities Utilization

VI. Current Facilities Utilization

DEED Capacity: Alaska Department of Education & Early Development (DEED) calculates allowable space based on Anchorage's attendance area. Allowable space is calculated based on the total number of students/total gross square footage in the attendance area.

Program Capacity: The district utilizes Educational Specifications and Administrative "Guiding Principles" to determining the program capacity of each school. It considers all educational programs, maximum student occupancy, support requirements and schedule flexibility. Relocatables are not included in determining program capacities.

Facility Utilization: Annually, principals are surveyed to determine their school's utilization capacity to reflect how the school is "actually" utilizing their space to support their academic program. When comparing against program capacity, this survey provides the Administration a tool to determine efficient use of all ASD schools.

School Program Capacity Projections: Table 14 lists projected enrollments of all schools over the next six years, as a percentage of program capacity. Those schools at which the projected enrollment is greater than 100 percent are highlighted in bold print.

Table 11
