Policy Number: B109
Title: Instructional Supplies
Section: Programs

I. Purpose

The Joint Committee enacts this policy to clarify EASTERN’s responsibility to provide appropriate and adequate supplies for the educational program. “Instructional supplies” are tools and materials that are required by the schools for students' participation in the course of study.

Instructional supplies needed to implement the District's educational program shall be provided to teachers and students by EASTERN typically at no cost to the student. In cases where students are permitted to keep items they have made, the students may be required to pay for the materials that were used. Furthermore, in some courses and extra-curricular activities, students may be permitted or required to provide certain supplies or apparel.

For example, where individualized and non-reusable clothing or equipment is required for reasons of safety or health, students will be requested to provide their own clothing or equipment which shall meet standards set by the school. Such standards shall be reasonably related to the industrial considerations of safety, health and protection of property.

Where the foregoing requirement imposes a financial hardship on a student, EASTERN will assume the cost. The Director shall devise procedures assuring that no student need be denied participation in the school program for financial reasons, while at the same time guarding the privacy of each student.
