Title: Educational Goals
Section: Programs

Educational Goals

I. Purpose

The Joint Committee recognizes that education is a vital function of the State and community. The community should be encouraged to participate in the establishment of the educational goals established for this school.

II. Authority

The Joint Committee shall establish educational goals for the School. Such goals will consider suggestions by:

Administrative Advisory Committee
Industrial Community Representatives
Executive Advisory Committee
Occupational Advisory Committees
School Representatives
Staff
Students
Administration

As a base for its educational program, the Joint Committee adopts the following educational goals on behalf of the students attending EASTERN.:

To provide the opportunity to become college or career ready with all of the advantages of a high-quality career and technical education.
To integrate the reinforcement and acquisition of academic skills with career and technical instruction through planned instructional activities.
To develop an understanding of the student's own worth,abilities, potentialities and limitations.
To learn to enjoy the process of learning and to acquire the skills necessary for a lifetime of continuous learning and adaptation to change.
To provide a cooperative educational experience to assist students in the transition from school to employment.
To provide for flexibility and continuous evaluation of selection and admission requirements based upon student interest, aptitude and the ability to profit from the instructional program.
To provide that the program of career and technical education be reviewed and revised continuously to meet the current changes in industrial conditions and technology.

To employ instructional standards, practices, materials and equipment which are accepted by industry.

To emphasize the desirable attitudes and good work habits that are needed in today's world of work.

To provide for exploratory and guidance opportunities, recognizing that all young people do not have sufficient experience, knowledge, or maturity to decide in advance what trade or occupation they wish to prepare for or for which they are best suited.

To maintain a program of safety which is responsive to industrial standards and student needs.

To provide the necessary services to assist students in overcoming learning disabilities which impact their ability to access their career and technical education.
