

Tony Alamo Elementary School Chess Team Wins State Championship! An Incredible Victory for Our Title 1, Self-Funded Program

We are proud to announce that the Tony Alamo Elementary School Chess Team has achieved a remarkable series of victories:

 State Champions – K-3 Division

 1st Place – CCSD Region 2

 Two Students Ranked in the Top 10 in Nevada

These accomplishments are impressive on their own—but even more inspiring considering the story behind them. As a Title 1 school, Tony Alamo Elementary serves a diverse and hardworking community, where resources are limited, but spirit and determination are not.

The chess program is completely self-funded and sustained by the unwavering dedication of three volunteer teachers and one committed parent. Without financial support or paid coaching, these volunteers devote countless hours after school and on weekends to guide, train, and support our students.

This year's state championship title proves what our community already knows:

With heart, hard work, and teamwork, anything is possible.

Beyond checkmates and trophies, this achievement shows the power of opportunity and mentorship. The Tony Alamo chess team has not only won tournaments—they've set an example for what our students can achieve when given the chance to thrive.

Let's celebrate this historic moment together—and continue to support programs that make a lasting difference in the lives of our children.

Go Alamo All-Stars!
