Minutes prepared by:

Physical Facilities

Indoor Air Quality/Heating, Ventilation, and Air Conditioning (HVAC)

The Board of Education recognizes that the maintenance of acceptable temperature, relative humidity and adequate fresh air ventilation in school buildings is a primary objective in the creation and maintenance of an optimal learning environment.

Indoor Air Quality in Existing Facilities

The Superintendent or his/her designee shall implement an indoor air quality program that provides for ongoing maintenance and facility reviews, in accordance with all applicable state statutes, necessary for the maintenance and improvement of the indoor air quality of all District facilities.

Starting on January 1, 2024 and annually thereafter, for all District facilities the Board of Education shall provide for a uniform inspection and evaluation program of indoor air quality complying with the Environmental Protection Agency's Tools for Indoor Air Quality for Schools Program. The results of the evaluation shall be made available for public inspection at a regularly scheduled Board of Education meeting and also posted on the District's website.

The District shall report biennially, in a manner as required, to the Commissioner of Education on the condition of its facilities, its long range facilities program, its air quality program, and green cleaning program. The Board must utilize standard reporting forms to conduct and report on both IAQ and HVAC inspections and must provide The Department of Administrative Services (DAS) the completed forms for each school. The forms and/or reports must be made available at a regularly scheduled Board of Education meeting and on the Board of Education/individual school website.

The inspection and evaluation program shall include, but not be limited to, a review, inspection or evaluation of the following:

1. the heating, ventilating, and air conditioning (HVAC) systems;
2. radon levels in the air and water;
3. potential for exposure to microbiological airborne particles, including fungi, mold, and bacteria;
4. chemical compounds of concern to indoor air quality, including volatile organic compounds;
5. pest infestation, including insects and rodents;
6. pesticide usage;
7. the presence and plans for removal of certain hazardous substances identified under federal law;
8. ventilation systems;

New Construction

Indoor Air Quality

Indoor Air Quality in Existing Facilities (continued)

9. plumbing, including water distribution systems, drainage systems, and fixtures;
10. moisture incursion (leaks);
11. the facilities' overall cleanliness;
12. building structural elements, including roofing, basements, and slabs;
13. the use of space, particularly in areas designed to be unoccupied; and
14. the provision of indoor air quality maintenance training for building staff.

Heating, Ventilation, and Air Conditioning (HVAC)

Heating, ventilation, and air conditioning systems shall be maintained in accordance with the prevailing maintenance systems, such as Standard 62. The Board direct the Superintendent or his/her designee to ensure that such systems shall be operated continuously during the hours in which students or school personnel occupy school facilities except during periods of scheduled maintenance or emergency repairs or at other times when it can be demonstrated that the air supply system meets the Standards 62 requirements for air changes per hour.

Records shall be maintained on the maintenance of the District's heating, ventilation, and air conditioning systems for a period of not less than five years. Such records shall be available to the public upon request.

~~Prior to January 1, 2025~~ **By June 30, 2030**, and every five years thereafter, the local or regional Board of Education shall provide for a uniform inspection and evaluation of the heating, ventilation and air conditioning system ~~within each of all school~~ buildings each **year** under its jurisdiction.

For the first year of implementation, the Department of Administrative Services (DAS) may waive these provisions (i.e., <20% of schools can be assessed by June 30, 2026, but 40% must nevertheless be assessed by June 30, 2027) if:

- Qualified HVAC technicians are unavailable in the first school year of implementation, or**
- The Board of Education has actually scheduled an inspection or evaluation but it is for a date in the subsequent school year.**

Such inspection and evaluation shall be performed by a certified testing, adjusting and balancing technician, an industrial hygienist certified by the American Board of Industrial Hygiene or the Board for Global EHS Credentialing, or a mechanical engineer. Such heating, ventilation and air conditioning systems inspection and evaluation shall include, but need not be limited to:

1. Testing for maximum filter efficiency
2. Physical measurements of outside air delivery rate
3. Verification of the appropriate condition and operation of ventilation components

Indoor Air Quality

Heating, Ventilation, and Air Conditioning (HVAC) (continued)

4. Measurement of air distribution through all system inlets and outlets
5. Verification of unit operation and that required maintenance has been performed in accordance with the most recent indoor ventilation standards promulgated by the American Society of Heating, Refrigerating and Air-Conditioning Engineers
6. Verification of control sequences
7. Verification of carbon dioxide sensors and acceptable carbon dioxide concentrations indoors, and
8. Collection of field data for the installation of mechanical ventilation if none exist.

The ventilation systems inspection and evaluation shall identify to what extent each school's current ventilation system components, including any existing central or non-central mechanical ventilation system, are operating in such a manner as to provide appropriate ventilation to the school building in accordance with most recent indoor ventilation standards promulgated by the American Society of Heating, Refrigerating and Air-Conditioning Engineers. The inspection and evaluation shall result in a written report, and such report shall include any corrective actions necessary to be performed to the mechanical ventilation system or the heating, ventilation and air conditioning infrastructure, including installation of filters meeting the most optimal level of filtration available for a given heating, ventilation and air conditioning system, installation of carbon dioxide sensors and additional maintenance, repairs, upgrades or replacement. Any such corrective actions shall be performed, where appropriate, by a contractor, who is licensed in accordance with chapter 393. The ~~local or regional~~ Board of Education ~~conducting an inspection and evaluations pursuant to this subsection~~ shall make available for public inspection the results of ~~such~~ **performed** inspections and evaluations at a regularly scheduled meeting of ~~such~~ **the** Board and on the ~~Internet~~ **Board's** website ~~of such Board and on the Internet website, if any of each individual school. The local or regional Board of Education shall not be required to provide for a uniform inspection and evaluation under this subdivision for any school building that will cease to be used as a school building within the three years from when such inspection and evaluation is to be performed.~~

Schedule Relief (HVAC)

The Board of Education shall ensure that at least 20% of their schools complete the HVAC inspections and evaluations by June 30, 2030, by which time the HVAC systems at all schools shall have been assessed.

School Year Ending June 30

2025-2026

Minimum Percentage of Schools Assessed (Total)

20% (20%)

2026-2027	20% (40%)
2027-2028	20% (60%)
2028-2029	20% (80%)
2029-2030	20% (100%)

P7230.2(d)

New Construction

Indoor Air Quality (continued)

Indoor Air Quality in New or Renovated Facilities

In order to secure appropriate indoor air quality in District schools, the Board of Education believes that when new facilities are constructed and when existing facilities are renovated, the following requirements shall be specified to the architect or design professional responsible for the construction project:

1. Adhere to the requirements defining minimum air circulation contained in the State Building Code which apply only when constructing new space.
2. The building/space meets or exceeds the ASHRAE (American Society of Heating, Ventilating and Air Conditioning Engineers) 62-1999 standard, "Ventilation for Acceptable Indoor Air Quality," which considers chemical, physical and biological contaminants that can effect air quality as referenced by the State Code adopted pursuant to C.G.S. 29-252.
3. Utilizing the ASHRAE 62-1999 standard, achieve a minimum ventilation rate per occupant of 15 cubic feet per minute (cfm) of outdoor air.
4. Design and placement of air handling equipment needs to be done in a manner where it is accessible to inspect and maintain the equipment; therefore, mechanical rooms are desirable versus exposed rooftop units or units hung above suspended ceilings.
5. With increased air flow requirements, attention must be given to the potential of air velocity noise within ductwork.
6. Fresh air intakes must be located, whenever possible, away from all types of vents and exhausts on roofs.
7. Air intakes and ventilation windows must be sufficiently distant from bus loops and loading docks.
8. Radon mitigation systems to provide a vapor barrier and protection from under-slab humidity should be a part of new school construction.
9. Attention must be given to the selection of carpeting, carpet adhesives and synthetic materials which may emit odorous and irritating volatile organic vapors degrading indoor air quality.
10. Reduce the potential of moisture intrusion through appropriately designed pitched roofs wherever possible.

11. Consider the economic feasibility of achieving dehumidification through air conditioning.
12. Install temperature control systems, which monitor temperature and other factors helpful in monitoring and diagnosing heating, ventilating and air conditioning (HVAC) systems.
13. When renovating an occupied building provide for the mechanical control of airborne pollutants associated with the construction process.

P7230.2(e)

New Construction

Indoor Air Quality

Indoor Air Quality in New or Renovated Facilities (continued)

The Board of Education directs the Superintendent to evaluate and apply for grant opportunities if offered by The Department of Administrative Services (DAS) and collaborate with the Town administration to plan budgets that allow HVAC inspections and assessments for 20% of school buildings in the 2025-2026 school year and annually thereafter.

Policy adopted by the Waterbury Board of Education on June 6, 2013 and revised on March 21, 2024

Individualized Education Program/Special Education Program

~~In accordance with the regulations of the State Board of Education, each local and regional board of education shall: (1) Provide special education for school-age children requiring special education; (2) The obligation of the school district under this subsection shall terminate when such child is graduated from high school or at the end of the school year during which such child reaches age twenty-two, whichever occurs first.~~

Effective July 1, 2023, all students remain eligible for special education services under the Individuals with Disabilities Education Act (IDEA) through the end of the school year during which the students turns age 22, or until the student graduates from high school with a regular high school diploma, whichever occurs first. Pursuant to the Connecticut General Statutes §10-259, school year is defined as July 1 through June 30.

Individualized Education Programs (IEPs) are essential foundations for providing effective, high-quality special education services. The Board requires that all procedures for implementing an individualized education program be designed to guard the privacy of the student and family.

A parent/guardian of a child, the State Department of Education, other state agencies available to District may initiate a request for an initial evaluation to determine if the child is a child with a disability. Initial evaluations using a variety of assessment tools and measures to gather relevant functional, developmental, and academic information, must be completed within 60 calendar days of the receipt of written parental consent, for the initial evaluation; or implement the student's IEP within 45 school days of a referral, (not counting the time necessary to obtain written parental consent to conduct the initial evaluation or to begin providing special education). The 45 school day requirement begins after the District receives a completed and signed PPT referral form or letter requesting a referral to the PPT process or per a timeline determined by the State. Exceptions to this timeframe include children moving between school districts and parental refusal to make a child available for evaluation, as provided by law. Assessments for disabled children who are transfer students shall be coordinated between the sending or receiving district in an expeditious manner.

The adult student or his/her parent/guardian will be asked by the District if the student wishes to receive the special education and related services outlined in their individualized education program (IEP) through the end of the school year during which they turn 22 years of age or they graduate with a regular high school diploma, whichever comes first.

The timeline for implementation of an IEP must occur within 60 school days of the PPT referral in those situations in which a student's IEP requires an out-of-district or private placement (not including the time it takes to obtain written parental consent).

Individualized Education Program/Special Education Program, (IEP)
continued

Any individualized education program (IEP) developed for a student with disabilities shall specify whether the student shall achieve the District's adopted content standards or whether the student shall achieve individualized standards that would indicate the student has met the requirements of his or her IEP. The District will provide parents/guardians with State Department of Education information and resources relating to IEPs as soon as a child is identified as requiring special education.

Information Provided to Parents Regarding Special Education

At the first PPT, when a child receiving special education services reaches 14, the district shall provide information to the child and parent/guardian regarding the full range of decision-making supports, including alternatives to guardianship and conservatorship and the plain-language online resources developed by CSDE regarding decision-making options available when the student reaches 18.

In addition, information that must be provided to parents/guardians at each PPT meeting shall include plain-language resources developed by CSDE regarding the hearing and appeals process, information regarding free and low-cost legal assistance, and The Parent's Guide to Special Education in Connecticut by CSDE. The district shall annually provide the Guide and rights and resources available to children receiving special education services at the beginning of the school year.

At the beginning of each school year, the district shall provide an informational handout developed by CSDE that explains what it means to have an IEP or Section 504 plan.

Upon request from a parent/guardian, or when there is an apparent need, the district shall provide interpreters and translated documents for students and parents, including translated copies of a child's IEP and any related documents.

The interpreter may be present in person, available by phone, or through an online platform, an Internet website, or other electronic application approved by the State Board of Education.

A parent/guardian of the Board may request mediation through the Mediation Services Coordinator at any time for any matter related to the provision of special education for a child, including, but not limited to, the identification, evaluation, educational placement, or implementation of an IEP. Upon receipt of a request for mediation, the Mediation Services Coordinator shall provide notification to the parties and invite them to participate in voluntary mediation.

Individualized Education Program/Special Education Program (IEP).
continued

Planning and Placement Team or Individualized Education Program Team

The term “individualized education program team” or “IEP Team” means a group of individuals composed of –

- (i) the parents/guardians of a child with a disability;
- (ii) not less than one regular education teacher of such child (if the child is, or may be, participating in the regular education environment);
- (iii) not less than one special education teacher, or where appropriate, not less than one special education provider of such child;
- (iv) a representative of the local educational agency who -
 - (I) is qualified to provide, or supervise the provision of, specially designed instruction to meet the unique needs of children with disabilities;
 - (II) is knowledgeable about the general education curriculum; and
 - (III) is knowledgeable about the availability of resources of the local educational agency.
- (v) an individual who can interpret the instructional implications of evaluation results, who may be a member of the team described in clauses (ii) through (vi);
- (vi) at the discretion of the parent/guardian or the agency, other individuals who have knowledge or special expertise regarding the child, including related services personnel as appropriate;
- (vii) the school paraprofessional, if any, assigned to such child, and
- (viii) whenever appropriate, the child with a disability.

NOTE: An IEP Team member is not required to attend all or part of an IEP meeting if the parents/guardians and District agree that the team member's participation is not necessary because the member's area of the curriculum or related services is not being modified or discussed at the meeting. If the meeting does involve a modification or discussion of the member's area of the curriculum or related services, parents/guardians and the District can agree to excuse the member from attending all or part of the meeting if the member submits written input to the parent/guardian and the IEP Team prior to the meeting. Parental consent in writing is required in either case.

In addition to the above, the special education specialist, school psychologist, school nurse, school social worker, counselor, or other student service worker who has conducted an assessment of the student shall participate whenever the results or recommendations based on such assessment are significant to the development of the student's individualized education program and placement. Where the student is limited or non-English speaking, a district representative who is fluent in the student's primary language and who is knowledgeable about the process of second-language acquisition and competent in the assessment of limited English and non-English speaking individuals should be included.

Any member of the PPT employed by the Board of Education who discusses or makes recommendations concerning the provisions of special education and related services during a PPT meeting shall not be disciplined, suspended, or otherwise punished for such recommendations.

Individualized Education Program/Special Education Program, (IEP)
continued

No birth-to-three coordinator or qualified personnel, as defined by C.G.S. 17a-248, who discusses or makes recommendations concerning the provision of special education and/or related services during a PPT meeting or in a transition plan shall be subject to discipline, suspension, termination or other punishment on the basis of such recommendations.

The parent/guardian or surrogate parent shall be given at least five (5) school days' prior notice of any PPT meeting and shall have the right to be present and participate in all portions of such meetings at which an educational program for their child is developed, reviewed or revised. In addition, parents/guardians or surrogate parents have the right to be present at and participate in all portions of the PPT meeting at which an educational program for their child is developed, reviewed or revised. In addition, the parent/guardian/surrogate shall have advisors and the child's assigned paraprofessional, if any, and such child's birth-to-three service coordinator, if any, be present at and participate in all portions of the PPT meeting in which the child's educational program is developed, reviewed or revised and have the right to have such recommendation made in such child's birth-to three individualized transition plan, if any, addressed by the PPT at which an educational program for such child is developed.

The District shall offer to meet with the student's parents/guardians, upon the request of the parents/guardians, after the student has been assessed for possible placement in special education and before the Planning and Placement Team (PPT) meets. The sole purpose of such meeting is to discuss the PPT process and any concerns the parent/guardian has about the student. The meeting will involve a member of the PPT designated by the District before the referral PPT meeting at which the student's assessments and evaluations will be discussed for the first time. This applies to students under evaluation for possible placement in special education.

Upon request of a parent/guardian, the District will provide the results of the assessments and evaluations used in the determination of eligibility for special education of a student at least three (3) school days before the referral PPT meeting at which such results of the assessment and evaluations will be discussed for the first time.

Parents/Guardians and the District may agree to conduct IEP meetings, and other meetings, through alternative means, such as including but not limited to, videoconferences or conference calls.

(a) **General.** The IEP for each child must include -

- (1) An accurate statement of the child's present levels of academic achievement and functional performance based upon parental provider information, current classroom-based, local, state assessments and classroom-based observations, including -
 - (i) How the child's disability affects the child's involvement and progress in the general education curriculum; or

Instruction

6159(e)

Individualized Education Program/Special Education Program (IEP),
continued

- (ii) For preschool children, as appropriate, how the disability affects the child's participation in appropriate activities;
- (2) A statement of measurable annual academic and functional goals that aim to improve educational results and functional performance for each child with a disability, related to -
 - (i) Meeting the child's needs that result from the child's disability to enable the child to be involved in and progress in the general education curriculum;
 - (ii) Meeting each of the child's other educational needs that result from the child's disability; and
 - (iii) Providing a meaningful opportunity for the child to meet challenging objectives.

Alternate Assessments

- (iv) A statement of “benchmarks or short-term objectives” is required only with respect to students with disabilities who take alternate assessments aligned with alternate achievement standards.

If a child will participate in alternate assessments based on either general or alternate achievement standards, the IEP must explain why the child cannot participate in the regular assessment and why the alternate assessment selected is appropriate for the child.

The IEP/PPT Team may only recommend appropriate accommodation or use of alternate assessment, but may not exempt students with disabilities from the state assessment.

- (3) A statement of the special education and related services and supplementary aids and services to be provided to the child, or on behalf of the child and a statement of the program modifications or supports for school personnel that will be provided for the child -
 - (i) To advance appropriately toward attaining the annual goals;
 - (ii) To be involved and progress in the general curriculum in accordance with paragraph a) (1) of this section and to participate in extracurricular and other nonacademic activities; and
 - (iii) To be educated and participate with other children with disabilities and non-disabled children in the activities described in this paragraph;
- (4) A school must offer an IEP that is “reasonable calculated to enable a child to make progress appropriate in light of the child's circumstances.” The child's educational

Instruction

6159(f)

Individualized Education Program/Special Education Program, continued

Alternate Assessments (continued)

program must be appropriately ambitious in light of his/her circumstances and every child should have the chance to meet challenging objectives. The IEP Team, in determining whether an IEP is reasonably

calculated to enable a child to make progress should consider the child's:

- Previous rate or academic growth,
- Progress towards achieving or exceeding grade-level proficiency,
- Behaviors, if any, interfering with the child's progress, and
- Parent's/Guardian's input and any additional information provided by such parents.

The U.S. Supreme Court, in the *Endrew F* decision stated, "any review of an IEP must consider whether the IEP is reasonably calculated to ensure such progress, not whether it would be considered ideal. (137S.CT. at 99)"

- (5) An explanation of the extent, if any, to which the child will not participate with non-disabled children in the regular class and in the activities described in paragraph (a) (3) of this section;
- (6) A statement of any individual modifications in the administration of State or district-wide assessments of student achievement that are needed in order for the child to participate in the assessment; and
- (7) The projected date for the beginning of the services and modifications described in paragraph (a)(3) of this section, and the anticipated frequency, location, and duration of those services and modifications; and
- (8) A statement of -
 - (i) How the child's progress toward the annual goals described in paragraph (a)(2) of this section will be measured; and
 - (ii) How the child's parents/guardians will be regularly informed (through such means as periodic report cards), at least as often as parents/guardians are informed of their non-disabled children's progress, of -
 - (A) Their child's progress toward the annual goals; and
 - (B) The extent to which that progress is sufficient to enable the child to achieve the goals by the end of the year
- (9) Reevaluation of a student's progress may not occur more than once a year unless agreed to by the parents/guardians and the District. Reevaluation must occur at least once every three years unless the parent/guardian and District agree that it is unnecessary.

Note: In order to make FAPE available to each eligible child with a disability, the child's IEP must be designed to enable the child to be involved in, and make progress in, the general education curriculum ("the same curriculum as for nondisabled children which is based on a State's academic content standards. This alignment must guide, and not replace the individualized decision-making required in the IEP process").

Instruction

6159(g)

Individualized Education Program/Special Education Program, (IEP) **continued**

(b) **Transition services.**

The district shall designate a transition coordinator who is responsible for the following:

- Complete a prescribed training program within three years of when the training program

commences or within one year of being appointed transition coordinator if appointed after the training program commences;

- Ensure parents receive information about transition resources, services, or public transition programs and know the eligibility requirements and application details; and
- The transition coordinator may be the director of student personnel or another school district employee.

- (1) Beginning in the 2024-25 School year, the Board of Education shall distribute a notice of a link to an online listing of transitional resources, transitional services, and public transition programs provided by the Statewide Transition Services Coordinator. This shall be distributed to parents/guardians of children receiving special education services in grades six through 12 at a PPT meeting.
- (2) At the first PPT meeting after the student turns 14, the Team will provide a listing to the parent/guardian of each public transition and adult education program for which the student may be eligible after graduation. Upon parent/guardian approval, an identified certified professional member of the PPT will notify the state agency that provides such a program about potential eligibility.
- (3) By the PPT meeting, which occurs approximately two years prior to the student's anticipated exit from the district, upon parent/guardian approval, a certified professional member of the PPT shall notify any state agency that provides an adult program for which the student may be eligible about the potential eligibility, invite an agency representative to attend the PPT, and permit and facilitate contact and coordination between the agency and parent. An identified certified professional member of the PPT will assist the parent/guardian in completing an application to any such program.

(4) The IEP must include -

- (i) For each student beginning not later than the first IEP to be in effect when the child is fourteen, and younger if the PPT determines it appropriate, and updated annually, thereafter, appropriate measurable postsecondary goals based upon age appropriate transition assessments related to training, education, employment, and, where appropriate, independent living skills; and the transition services, including courses of study, needed to assist the student in reaching those goals.

Individualized Education Program/Special Education Program (IEP)
continued

- (ii) For a student no longer eligible for services due to graduation from high school with a regular diploma or for a student who exceeds the age of eligibility under State law, a summary of the student's academic achievement and functional performance including recommendations on how to assist the student in meeting his/her postsecondary goals.
 - (5) If the IEP team determines that services are not needed in one or more of the areas specified in §300.27(c)(1) through (c)(4), the IEP must include a statement to that effect and the basis upon which the determination was made.
- (c) **Transfer of rights.** Beginning not later than one year before a student reaches the age of majority under State law, the student's IEP must include a statement that the student has been informed of his or her rights under this title if any, that will transfer to the student on reaching the age of majority, consistent with §615(m)
- (d) **Students with disabilities convicted as adults and incarcerated in adult prisons.** Special rules concerning the content of IEP's for students with disabilities convicted as adults and incarcerated in adult prisons are contained §612(a)(5)A.
- (e) **Students with disabilities identified as deaf or hearing impaired.** For a child identified as deaf or hearing impaired, the PPT shall develop an IEP which includes a language and communication plan which shall address;
 - (i) the child's primary language or mode of communication;
 - (ii) opportunities for direct communication between the child and his/her peers and professional personnel in the primary child's language or mode of communication;
 - (iii) educational options available to the child;
 - (iv) the qualifications of teachers and other professional personnel administering the plan for the child, including their proficiency in the child's primary language or mode of communication;
 - (v) the accessibility of academic instruction, school services and extracurricular activities to the child;
 - (vi) Assistive devices and services for the child;
 - (vii) Communication and physical environment accommodations for the child; and
 - (viii) An emergency communications plan that includes procedures for alerting the child of an emergency situation and ensuring that the specific needs of the child are met during the emergency situation. Such plan is to be developed for a student identified as deaf, hard of hearing, or both blind or visually impaired and deaf.

Individualized Education Program/Special Education Program (IEP)
continued

(f) *Students who are children of a member of the armed forces*

If, after the start of a school year, a child of a member of the armed forces:

1. enrolls in a school under the jurisdiction of a local or regional Board of Education, as a result of such member having received military orders directing such member to the state or any other documents from the armed forces indicating the transfer of such member to the state, and
2. such child enrolls with an individualized education program or plan pursuant to Section 504 of the Rehabilitation Act of 1973 from such child's prior school.

The Board shall take necessary steps, including, but not limited to, the transfer of any records and prior evaluations, the performance of any reevaluations and, not later than thirty school days after such child's enrollment, the holding of any planning and placement team meeting or meeting to establish a plan pursuant to Section 504 of the Rehabilitation Act of 1973 for such child, to ensure a minimally disruptive transition to the provision of comparable services.

Transfers

When an individual has been on an IEP in another school district, the PPT shall make an evaluative study of the student and develop an IEP for the student as though the student were newly referred, but the PPT may use the previous IEP (if available) in developing the new one.

If the transfer involves districts within Connecticut, the District will provide services “comparable to those described in the previously held IEP,” until the District adopts the previously held IEP or develops, adopts, and implements a new IEP. If the student has transferred from another state, the District will provide services “comparable to those described in the previously held IEP,” until the District conducts an evaluation, if deemed necessary, and if appropriate, develops a new IEP. If a student who is on an IEP transfers from this district to another, or to a private school, the written IEP and any additional records relating to the student's program and achievement shall be forwarded to the receiving school on the request of the receiving school and the individual's parent or guardian.

Districts receiving out-of-district students requiring special education shall:

- a) hold the planning and placement team meeting for each out-of-district student who requires special education and related services and invite representatives from the sending district to participate in such meeting, and
- b) ensure that such students receive the services mandated by the student's individualized education program whether such services are provided by the sending district or the receiving district.

Individualized Education Program/Special Education Program (IEP)
continued

Transfers (continued)

Furthermore, in the case of a student with a plan pursuant to Section 504 of the Rehabilitation Act of 1973, as amended from time to time, the receiving district shall:

- a) ensure that such student receives the services mandated by the student's plan, and
- b) pay for the costs of providing such services to such student.

If the Board of Education receives an out-of-district placement of a student who receives special education services, through an agreement or contract with a sending local or regional board of education pursuant to subsection (d) of section 10-76d of the general statutes or section 10-91j, as amended by PA 25-67, the Board shall not transfer such student to any other school or facility unless:

1. upon initiation of the sending local or regional Board of Education or upon the request of a parent or guardian of such student, or such student if such student is eighteen years of age or older or an emancipated minor, such sending local or regional Board of Education holds a planning and placement team meeting for the purpose of determining the appropriateness of such transfer, and
2. the planning and placement team determines that such transfer is more appropriate for the educational needs of such student than the current out-of-district placement.

A representative of the Board of Education shall be invited to attend and participate in such planning and placement team meeting but may not request that such planning and placement team meeting be held.

Prior to the enrollment of a District student in a technical education and career school, the District will convene a PPT in order to address such student's transition to the technical education and career school and ensure that such student's IEP reflects the current supports and services the student requires in order to access a Free and Appropriate Public Education (FAPE) in the least restrictive environment. A representative from the technical education and career school shall be invited to the PPT meeting.

Independent Educational Assessment

If an independent educational assessment is necessary, it shall be conducted by a Connecticut credentialed or licensed professional examiner who is not employed by and does not routinely provide assessment for the State Department of Education or this District.

Policy adopted by the Waterbury Board of Education on October 17, 2019; revised on October 15, 2020 and revised on December 16, 2021, and November 9, 2023; _____, 2026

Special Education

The Waterbury Board of Education accepts its legal duties and responsibilities for providing special education for the students of the school district.

The district shall provide a free appropriate public education and necessary related services to all children requiring special education, as defined in PA 25-67 Section 1, residing within the district, required under the Individuals with Disabilities Education Act (“IDEA”), Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act, and Connecticut Statutes.

It is the intent of the District to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 are identified, evaluated, and provided with appropriate educational services. Students may be disabled within the meaning of Section 504 of the Rehabilitation Act even though they do not require services pursuant to the IDEA.

For students eligible for services under IDEA, the District shall follow procedures for identification, evaluation, placement, and delivery of services to children with disabilities provided in state and federal statutes that govern special education. For those students who are not eligible for services under IDEA, but because of disability as defined by Section 504 of the Rehabilitation Act of 1973, need or are believed to need special instruction or related services, the District shall establish and implement a system of procedural safeguards. The safeguards shall cover students’ identification, evaluation, and educational placement. This system shall include notice, an opportunity for the student’s parent(s)/guardian(s)/surrogate parent to examine relevant records, an impartial hearing with opportunity for participation by the student’s parent(s)/guardians(s), representation by counsel, and a review procedure.

Effective July 1, 2023, all students remain eligible for special education services under the Individuals with Disabilities Education Act (IDEA) through the end of the school year during which the student turns age 22, or until the student graduates from high school with a regular high school diploma, whichever occurs first. Pursuant to the Connecticut General Statutes §10-259, school year is defined as July 1 through June 30. A free appropriate public education (FAPE) must be provided to any child requiring special education beginning on or after the child’s third birthday, whether that birthday occurs during the regular school year.

In making a determination of eligibility for special education and related services, through use of a variety of assessment tools and strategies designed to gather relevant functional, developmental, and academic information, a student shall not be determined to be a disabled student if the dominant factor for such a determination is a lack of appropriate instruction in reading, including in the essential components of reading instruction, as defined in the Every Student Succeeds Act, lack of instruction in math or limited English proficiency or evidence that a child’s behavior repeatedly violated disciplinary policy.

Special Education, continued

Further, the District is not required to take into consideration whether a student has a severe discrepancy between achievement and intellectual ability in oral expression, listening comprehension, written expression, basic reading skills, reading comprehension or mathematical calculation or reasoning. A child shall become eligible for special education services on his or her third birthday.

In determining whether a child has a specific learning disability, the District may use a process that determines if the student responds to scientific, research-based intervention as a part of the evaluation procedures to determine eligibility. The program to which each student with a disability is assigned shall provide an appropriate education, seek to assure success in learning, and offer the least restrictive environment, in accordance with federal and state regulations. No student with a disability shall be denied, because of handicap/disability, participation in activities, programs, or services offered or recognitions rendered to District students, unless participation is not possible because of the handicap/disability.

Each student requiring special education, as defined in PA 25-67 section 1, who is a resident of the district shall be provided quality education programs and services that meet the student's needs for educational, instructional, transitional and related services. The special education program shall be designed to comply with federal and state law; conform to district goals; and integrate programs of special education with the regular instructional programs of the schools, consistent with the interests of the student requiring special education and other students. If necessary, students requiring special education may also be placed in private school education facilities. Students with disabilities are required by federal law to be included in State and District-wide assessments, with appropriate accommodations where necessary.

In accordance with the regulations of the State Board of Education, each local and regional Board of Education shall:

1. Provide special education for children requiring special education, as defined in PA 25-67 section 1.
2. The obligation of the school district under this subsection shall terminate when such child graduates from high school or at the end of the school year during which such child reaches age twenty-two, whichever occurs first.
3. Report to the Department of Education on each placement of a student receiving special education services for which the board is paying a portion of the cost:
 - a. Whether such placement is a result of a decision of a planning and placement team meeting, a settlement agreement, or a special education hearing pursuant to section 10-76h of the general statutes;

Library Material Review and Reconsideration Policy

The Waterbury Board of Education understands that, on occasion, a member of the public will wish to lodge a complaint against instructional material used in the classroom or available in the school library/media center. Consideration of requests to reconsider and remove material, displays, or student programs is limited to individuals with a vested interest. An individual with vested interest may challenge any library and other educational materials, display or student program by initiating a review of such material via the submission of a request for reconsideration form.

It shall be the policy of the Waterbury Board of Education that the removal, exclusion or censoring of any book shall not occur on the sole basis that a person with a vested interest finds such book offensive. No library and other educational material, display, or program shall be removed from library media centers, or programs be canceled, because of the origin, background, or viewpoints expressed in such material, display, or program, or because of the origin, background, or viewpoints of the creator of such material, display, or program. Library and other educational materials, displays, and student programs shall only be excluded for legitimate pedagogical purposes or for professionally accepted standards of collection maintenance practices as adopted in the collection development and maintenance policy or the display and program policy.

Until a final decision is made by the review committee, any library and other educational material being challenged shall remain available in the school library media center according to such material's catalog record and be available for a student to reserve, check out, or access.

A school district may consolidate any requests for review and reconsideration of the same challenged library and other educational material. Once a decision has been made by **the review committee** on any library and other educational material, such material cannot be subject to a new request for review and reconsideration for a period of three years.

Through this policy, the Board of Education ensures that all library materials shall be evaluated and made accessible in accordance with the protections against discrimination set forth in sec10-15c of the general statutes, including, but not limited to, discrimination based on race, color, sex, gender identity, religion, national origin, sexual orientation, or disability. The Board shall review and update this policy as necessary every five years.

Definitions

"Library and other educational material" means any material belonging to, on loan to or otherwise in the custody of a school library media center, including, but not limited to, nonfiction and fiction books, magazines, reference books, supplementary titles, multimedia and digital material, software and other material not required as part of classroom instruction.

"School library staff member" means a school library media specialist, school librarian, any certified or non-certificated staff member whose assignment is in the school library or any individual carrying out or assisting with the functions of a school library media specialist or school librarian.

"Individual with a vested interest" means any school staff member employed by a local or regional board of education, parent or guardian of a student currently enrolled in a school at the time a

reconsideration form is filed, or any student currently enrolled in a school at the time a reconsideration form is filed.

"Remove" means deliberately taking library material out of a library's collection. **"Remove"** does not include the process of clearing such collection of any materials that are no longer useful.

Instruction

6161.12(b)

Library Material Review and Reconsideration Policy, continued

Material Review and Reconsideration Procedure

The Board of Education has established the following procedure for addressing complaints regarding displays in the library:

1. An individual with a vested interest may initiate the review or reconsideration of any library and other educational materials, display, or student program by submitting a request for recommendation form to the principal of the school in which the library and other educational materials are being challenged.
2. The Principal, or the Principal's designee, shall promptly forward the request for reconsideration to the Superintendent of Schools for the school district.
3. The Superintendent, or the Superintendent's designee, shall appoint a review committee consisting of:
 - a) The Superintendent, or the Superintendent's designee;
 - b) the Principal of the school in which the library and other educational material is being challenged, or the Principal's designee;
 - c) the Chief Academic Officer, or a person in an equivalent position;
 - d) a representative from the local or regional board of education;
 - e) at least two representatives from the WTA, the teacher selected may not be the individual who submitted the form;
 - f) a parent or guardian of a student enrolled in the school district, provided the parent or guardian selected is not the individual who submitted the form;
4. The **review committee** shall evaluate the request for reconsideration form. The committee will vote and the decision will be made by a majority.
5. The **review committee** shall make a *written decision* on whether to remove the challenged display *within thirty school days* from the date of receiving such request and provide a copy of the committee's decision and report to *the individual with a vested interest who submitted the form and to the principal of the school*.
6. The individual with a vested interest who submitted the *request for reconsideration form* may appeal to the *review committee's decision* to the local or regional board of education for the school district. The Board shall determine whether the reconsideration process was followed and publish the decision on the school district's website.

General Provisions

Any school library media specialist or school library staff member who, in good faith, implements the policies described in this section shall be immune from any liability, civil or criminal, that might otherwise be incurred or imposed and shall have the same immunity with respect to any judicial proceeding that results from such implementation.

Policy adopted by the Waterbury Board of Education on November 19, 2025

Library Collection Development and Maintenance Policy

The Waterbury Board of Education recognizes that library and other education materials should be provided for the interest, information and enlightenment of all students, and represent a wide range of varied and diverging viewpoints in the collection as a whole.

Students shall have access to the library and other educational material that is relevant to the research, independent reading interests, and educational needs of students based on a student's age, development, or grade level.

The library media center is an important place for voluntary inquiry, the dissemination of information and ideas, and the promotion of free expression and free access to ideas by students.

A school library media specialist is professionally trained to curate and develop a collection that shall provide students with access to the widest array of age-appropriate and grade-level-appropriate library and other educational material.

Through this policy, the Board of Education ensures that all library materials shall be evaluated and made accessible in accordance with the protections against discrimination set forth in section 10-15c of the general statutes, including, but not limited to, discrimination based on race, color, sex, gender identity, religion, national origin, sexual orientation, or disability. The Board shall review and update this policy as necessary every five years.

The Waterbury Board of Education directs the Superintendent to create an administrative regulation that establishes a procedure for a certified school library media specialist to continually review library and other educational material within a school library media center using professionally accepted standards which shall include, but need not be limited to: the material's relevance, physical condition of the material, availability of duplicates or copies of the material, availability of more recent age-appropriate or grade-level appropriate material and continued demand for the material.

Purpose:

This regulation establishes a procedure for certified school library media specialists to continually review library and other educational materials within a school library media center to ensure that they are relevant, in good condition, and age- or grade-level-appropriate.

General Procedure:

Using the criteria identified below and their professional judgment, the school library media specialist shall conduct a systematic review of the library's collection:

1. Material relevance

- a. Consult with instructional staff to determine whether the material is still useful and has up-to-date information.
- b. Evaluate usage data to assess the material's relevance to student interests and research needs.

2. Physical condition of the material

- a. Assess whether the material is damaged or worn beyond reasonable use.

Instruction

6161.13(b)

Library Collection Development and Maintenance Policy

3. Availability of duplicates or copies of the material

- a. Determine whether the availability of duplicates or multiple copies is justified based on usage statistics to avoid redundancy.

4. Availability of more recent age-appropriate or grade-level appropriate material

- a. Investigate the availability of newer editions or versions that offer more current and accurate information by considering awards and recommended lists for recently recognized literature.
- b. Ensure that any new material uses language that is appropriate for the reading level of students in the targeted grade range and developmental levels.
- c. Evaluate whether the new material's treatment of difficult or sensitive subjects (e.g., death, mental health, violence, sexuality) is in a developmentally appropriate way for the intended student audience.

5. Continued demand for the material

- a. Consult with instructional staff to determine whether the material continues to be cited or referred to for classroom instruction.
- b. Review usage data to determine whether the material is still being sought by students or teachers.

Library Collection Development

Objectives of Materials Selection

- To provide faculty and students with materials that enrich and support the curriculum and meet the recreational reading needs of the students served.
- To provide students with a wide range of age and grade appropriate educational materials on all levels of difficulty and in a variety of formats, with diversity of appeal, allowing for the presentation of many different points of view.
- To select materials in all formats, including up-to-date, high quality, varied literature to develop and strengthen a love of reading.

All library materials are evaluated and made accessible in accordance with the protections against discrimination set forth in section 46a-64 of the Connecticut General Statutes, including, but not limited to, discrimination based on race, color, sex, gender identity, religion, national origin, sexual orientation, or disability.

General Selection Criteria

In selecting what materials to purchase for the School Library, professionally trained library personnel shall evaluate materials using the following general selection criteria. Not all criteria may be applicable in every selection.

- **Curriculum Support:** Resources that support and enrich the curriculum and/or students' personal interests and learning.
- **Quality and Standards:** Works that meet high standards in literary, artistic, and aesthetic quality, as well as technical aspects and physical format.
- **Appropriateness:** Materials suited to the subject area, and to the age, emotional development, ability level, and social, emotional, and intellectual development of the students served.
- **Accuracy and Authority:** Resources incorporating accurate and authentic factual content from authoritative sources.
- **Professional Reviews:** Titles earning favorable reviews in standard reviewing sources and/or recommended by professional personnel following preview and examination.
- **User Appeal:** Materials with a high degree of potential interest and appeal to students.
- **Viewpoint Representation:** Resources that present differing perspectives on controversial or complex issues.
- **Format Variety:** A range of physical and virtual resources, including print, electronic, multimedia, subscription databases, e-books, educational games, and other emerging technologies.

Instruction/Community Relations

Library Collection Development and Maintenance

General Selection Criteria

- **Durability and Design:** Physical format, appearance, and durability appropriate to the material's intended use.
- **Collection Gaps:** Materials that fill a substantial gap in the collection on a particular topic or subject area.
- **Cost Effectiveness:** Balance between the cost of materials and the demonstrated need or value to the collection.

In selecting library materials, library personnel will evaluate available resources and curriculum needs and will consult reputable, professionally prepared aids to selection, and other appropriate sources. The actual resource will be examined whenever possible.

Recommendations for purchase or gift materials shall be judged by the selection criteria and shall be accepted or rejected by those criteria.

Library Collection Maintenance

Withdrawing materials from the School Library ensures the library collection remains current, accurate, and relevant so that students and staff can easily find high quality resources that support learning and engagement.

In selecting what materials to withdraw from the School Library, professionally trained library personnel shall evaluate materials using the following general selection criteria. Not all criteria may be applicable in every selection.

1. **Physical Condition:** Items that are damaged, worn, or in poor condition and cannot be feasibly repaired.
2. **Accuracy and Currency:** Materials outdated or inaccurate information, particularly in fields where current knowledge is critical.
3. **Relevance and Demand:** Titles that have not circulated for a significant period of time, or that no longer support the library's mission, curriculum, or community interests.
4. **Duplication:** Excessive copies of titles where demand no longer justifies multiple holdings.
5. **Format Obsolescence:** Materials in formats no longer supported by current technology or no longer used by the community.

Instruction/Community Relations

Library Collection Development and Maintenance

Library Collection Maintenance (continued)

6. **Incompleteness of Series:** In cases where a series is substantially incomplete and replacement volumes are unavailable or cannot be obtained at a reasonable cost, the remaining titles may be withdrawn to maintain the collection's overall usefulness, consistency, and appeal.
7. **Space Considerations:** Items may be withdrawn when necessary to manage shelf space and maintain an accessible, browsable collection.

Library and Other Educational Material Assessment Form

Title of the material: _____ **Date of Assessment:** _____

Author: _____ **Assessor:** _____

Date of Publication: _____

Material relevance:

- ☐ Consulted with knowledgeable staff member(s) or teacher(s)
- ☐ The language is appropriate for the reading level of students in the targeted grade range
- ☐ Material is up-to-date and accurate

Notes:

Physical condition of the material:

Condition rating: ☐ Excellent ☐ Good ☐ Fair ☐ Poor

Availability of duplicates or copies of the material:

Count of available copies: _____

Notes:

Availability of more recent age-appropriate or grade-level appropriate material:

If new material is available:

- ☐ It uses language appropriate for the reading level of students in the targeted grade range
- ☐ Presents difficult subjects (death, mental health, violence, sexuality etc.) in a developmentally appropriate way

Notes:

Continued demand for the material:

Describe the frequency with which the material is being accessed:

Determination:

☐ Retain ☐ Replace ☐ Remove

Explanation of decision and rationale

The school library media specialist shall complete the Library and Education Material Assessment Form when determining the removal or retention of a material. Assessment forms shall be maintained in the library center and made available upon request by individuals with vested interest.

Library Display and Program Policy

Library displays and student programs are critical in serving as resources for voluntary inquiry, the dissemination of information and ideas, and promoting free expression and free access to ideas by students.

The Waterbury Board of Education recognizes that library displays are provided for the interest, information and enlightenment of all students, represent a wide range of varied and diverging viewpoints, and provide access to content that is relevant to the research, independent interests and educational needs of students.

The Waterbury Board of Education acknowledges that a school library media specialist is professionally trained to curate and develop displays and programs that shall provide students with access to the widest array of age-appropriate and grade-level-appropriate library and other educational materials.

Through this policy, the Board of Education ensures that all library materials shall be evaluated and made accessible in accordance with the protections against discrimination set forth in section 10-15c of the general statutes, including, but not limited to, discrimination based on race, color, sex, gender identity, religion, national origin, sexual orientation, or disability. The Board shall review and update this policy as necessary every five years.
