May is Food Allergy Awareness Month! Food allergies happen when the body reacts to certain foods like milk, eggs, wheat, soy, peanuts, tree nuts, fish, or shellfish. At school, we work hard to keep all students safe by following careful food preparation and safety practices. Families can help too, talk with your child about not sharing food and always telling an adult if they feel unwell after eating. Together, we can create a safe and welcoming environment for everyone at mealtime.
