MAP Growth Data

Inquiry Area 1: We will increase the percentage of students meeting projected growth in Math from 47% in Winter 2023 to 53% in Winter 2024 as measured by the Winter 2024 Math MAP Assessment.

- Met our goal in math.
- Some grade levels are doing better than others. Is there a reason for this? Is this something to be shared across the grade levels?
- Challenges: New curriculum, sporadic training. Setting classroom goals and staying consistent in having students share responsibility for them.
 - *New GOAL: We will increase the percentage of students meeting projected growth in Math from 56% in Winter 2024 to 60% as measured by the Spring 2024 Math MAP Assessment.*
 - *New GOAL for 2024-2025: We will increase the percentage of students meeting projected growth in Math from 56% in Winter 2024 to 62% as measured by the Winter 2025 Math MAP Assessment.*

Inquiry Area 1: We will increase the percentage of students meeting projected growth in ELA from 44% in Winter 2023 to 50% in Winter 2024 as measured by the MAP Growth Assessment.

- Goal not met in ELA. New curriculum, late to arrive. Implement Walk to Read earlier in the year. Setting classroom goals and staying consistent in having students share responsibility for them.
- NEXT STEPS: Increase/maintain HMH Training opportunities. Continue with Walk to Read as long as possible. Add kindergarten to Walk to Read? (Ms. Trotter to work with small groups after data review.)
 - MAINTAIN and KEEP GOAL
 - *Previous Goal: We will increase the percentage of students meeting projected growth in ELA from 44% in Winter 2023 to 50% in Winter 2024 as measured by the MAP Growth Assessment.*
 - *New GOAL: We will increase the percentage of students meeting projected growth in ELA from 42% in Winter 2024 to 50% in Spring 2024 as measured by the MAP Growth Assessment.*
 - *New Goal 2024-2025: We will increase the percentage of students meeting projected growth in ELA from 42% in Winter 2024 to 48% in Winter 2025 as measured by the MAP Growth Assessment.*
 - *Keep Goal.*
 - **Improvement Strategy:** *Implement Tier I instruction using the adopted curriculum in alignment with the pacing guides; post and communicate the learning intentions and student success criteria aligned to the standards.*
 - **1003(a) Improvement Strategy:** *Provide evidence-based Tier II instruction to reduce the academic deficiencies and learning gaps for identified students based*

on data.

- Inquiry Area 2: Adult Learning Culture

- *Increase the percentage of classroom observations that show evidence of teachers using success criteria and learning intentions from 0% to 80% by the end of the first semester (December 2023).*
- Use of “Focal Point” to collect data for learning intention alignment to standard and classroom tasks. Alignment of instruction to standards is very good. PLC meetings and minutes indicate good alignment as well.
- Goal was met!
- Challenges: Need to interact more with the standard.
- NEXT STEPS: Regular review of data. Video of classroom teachers working with intentions/success criteria, review of goals at the end of lesson, etc...? Can teachers and students reflect and make changes to teaching and learning? HMH and EnVision “look for” tool?
- Need: Instructional rounds
 - **Improvement Strategy:** *Weekly PLCs focused on Tier I instruction in Math, unwrapping standards, and identifying learning intentions and success criteria.*
 - **1003(a) Improvement Strategy:** *Analyze student performance data to plan to respond to all students’ learning needs and inform Tier II instructional decisions.*
 - **New GOAL:** *Increase the percentage of classroom observations that shows evidence of teacher and students engaging with the student success criteria and learning intentions from 15% as measured in December 2023 to 50% by April 2024.*

2.4 Reviewed the Code of Conduct and where to find it. We also discussed our MTSS system for behavior school wide.
