

WAYS TO MAKE AN IMPACT

Let's step into a future where Morris Catholic is celebrated as the premier Catholic college preparatory school in the state. Strategic plans are in place to accomplish this and more, but it will take a community effort for Morris Catholic to reach the top of the class.

Join others and be part of Morris Catholic's growth by:

1. Endowing a Scholarship

An endowed scholarship generates a perpetual stream of investment income that is used to award highly needed scholarships. This makes attending Morris Catholic financially feasible for many families. The minimum level to endow a scholarship is a \$25,000 gift, payable over five years. A gift of this size supports the tuition needs of a student each school year. The gift of an education is one a student will never forget. Scholarships can be named for the benefactor or in honor of an individual.

2. Supporting the Health and Fitness Center

The approximately 15,000-square-foot, two-story Health and Fitness Center – equipped with the latest weight and cardio equipment – will inspire and help both current student-athletes and students achieve peak physical condition and promote strong mental health. In addition, the new facility will stand tall like our students, will signal the growth of Morris Catholic, and aid in recruiting and enrollment efforts. Gifts support the center's construction, and opportunities to name spaces are available.

3. Making An Annual Fund Gift

The annual fund provides the extra resources that the school needs to operate well and remain financially healthy. Tuition alone doesn't provide the operating dollars required. Gifts of any size help bolster the budget and support all aspects of the student educational experience, from the classroom and labs to the stage and athletic fields. In addition, recurring annual fund gifts provide dependable income and aid the school in planning its budget.
