

Director Procedure Number: DC107
Title: Student Fund Raising
Section: Students

Student Fund Raising

Any student or approved student organization wishing to conduct student fund raising on school property must obtain pre-approval of the event or other fund raising activity by submitting a Request for Student Fund Raising Form to the Director or his/her designee.

All Request for Student Fund Raising Forms must be submitted to the appropriate person no fewer than thirty (30) days prior to when the fund raising is scheduled to occur.

Under no circumstances should students be required or encouraged to be involved in door-to-door solicitations in the community without parental oversight.

Students involved in approved fundraising campaigns utilizing a preorder sales approach may solicit customers during the school day, provided there is no disruption of the academic program.

Students may not use EASTERN's website or internet to promote fundraising without the express, written consent of the Director.

Students may not engage in fundraising for outside groups or individuals during the school day.

Other permitted methods of fund raising on EASTERN's property are:

1. Clinics by students related to their program (such as cosmetology);
2. Sales of food made by students on the premises; and
3. Sales of gift items such as balloons.

Adopted: 6/19/13
