Custom Export

The image displays three overlapping screenshots of the Advanced Analytics user interface, illustrating the 'Custom Export' process.

- Left Screenshot (Export Data):** Shows the initial export configuration. It includes a 'PREVIOUS' and 'NEXT' button, an 'Export Name' field (10-11 H), a 'Select an export type' dropdown (Student), and a 'Show fields in group' dropdown (ALL). A list of fields is visible, including Person_School, Person_GenderIdentity, Person_DOB, Person_PreferredPronouns, Person_Age, Person_UniqueID, Person_HasPhoto, Person_PhotoModifiedOn, Person_GUID, Person_CellPhone, Person_Pager, Person_Email, and Person_PrimaryLanguage. A blue '>>' button is at the bottom.
- Middle Screenshot (Custom Exports: AA_Author_Training):** Shows the scheduling configuration. It includes a 'Schedule name' field (AA_Author_Training), a 'When:' section with radio buttons for 'Once' and 'Weekly' (selected), and date/time pickers for 'Date', 'Time', 'Start Date', 'End Date', and 'Time'. A 'Sunday' checkbox is also present.
- Right Screenshot (Choose your table):** Shows a modal dialog for selecting a table. It includes a 'Catalog' dropdown (AwsDataCatalog), a 'Database' dropdown (stda-sales-demo1), and a list of tables (st_custom_export_test_aa, student_assessment). The 'st_custom_export_test_aa' table is selected. Buttons for 'Edit/Preview data', 'Use custom SQL', and 'Select' are at the bottom.
