

Dear TCA Families and Friends,

TCA's Board of Directors would like to share some highlights from the April 13, 2026, Board Meeting:

Board Election Results

Mr. Matt Altman, TCA Board Clerk, announced the results of the TCA Board Election. Mr. Bob Haller and Mr. Tony Warnock were elected to serve 3-year terms starting in August 2026. Please join us in congratulating them for their willingness to serve in this important capacity.

Celebrate TCA

We celebrated the Junior High 7th Grade Science efforts with the "Lettuce Grow" hydroponic farmstands. Mrs. Richie and Mrs. Ehresman both teach Life Science and supplemented their botany lessons by providing students a first-hand experience of growing vegetables and herbs. Four Junior High students shared their insights into how the farmstand works, what they cultivated, their observations throughout the process, and the special end-of-semester feast featuring their harvest. What a meaningful way for our students to witness beauty and growth every day in the science classroom!

Secondary Curriculum Approved

The Board approved the secondary science curriculum recommendations that were submitted in March. The adopted textbooks include Environmental Science, Anatomy & Physiology, AP Biology, Chemistry, AP Physics, Earth Science/Astronomy, and integrated Biology, Chemistry, and Physics courses. All textbooks and curriculum resources will be ordered and implemented for the next school year.

Confirmation of Administrative Committee Work

TCA's Educational Philosophy Deans presented a detailed report on the administrative committee's work to clarify language in the library policies and align them with the new state statute, SB 25-063, signed into law in May 2025. The Board's motion and discussion were related to the committee's work, rather than approval of the policy itself. The Board unanimously affirmed that the committee had acted within its recognized authority and had met all deadlines established by the Colorado State Legislature.

Capital Construction

Director Laura Moffat shared her excitement about the progress at East Campus noting that the structure is quickly taking shape. The exterior walls are now in place, and upgrades to power and gas have been completed. Work will now shift to the interior, focusing on walls, ductwork, electrical, plumbing, HVAC, low volt wiring and finishing details. Thanks to favorable weather, construction remains on schedule and is expected to be completed in time for the start of school this fall.

As always, if you have any questions, please contact us at talk2tcaboard@gmail.com.

Thank you,
Laura Moffat
Board Secretary
