

Book	Policy Manual
Section	200 Pupils
Title	Assignment Within District
Code	206
Status	Active
Adopted	April 22, 2013

Purpose

The Board directs that the assignment of students to classes and schools within this district shall be consistent with the educational needs and abilities of students and the best use of district resources.

Authority

The Board shall determine as needed, the school attendance areas of the district, and the students within each area are expected to attend the designated school. In assigning students to schools within this district, no discrimination shall occur.[\[1\]](#)[\[2\]](#)[\[3\]](#)

Delegation of Responsibility

The Superintendent periodically shall review existing attendance areas and recommend to the Board changes that may be justified by considerations of safe student transportation and travel, convenience of access to schools, financial and administrative efficiency, or appropriateness of the instructional program.

The Superintendent or designee may assign a student to a school other than the one designated for the attendance area when such exception is justified by circumstances and is in the educational interest of the student.

The Superintendent or designee shall assign incoming transfer students to schools, grades, and classes that afford each student the greatest likelihood of realizing his/her educational and academic goals.

Principals shall be responsible for the grouping and class assignment of students in their respective buildings. All student assignments to class groups shall be based upon data indicating the most beneficial and productive placement of the student as determined by teachers, guidance counselors and the building principal.

Guidelines

Classroom Placement of Twins/Higher Order Multiples

A parent/guardian of twins or higher order multiples who are in the same grade level at the same school may request that their children be placed in the same classroom or in separate classrooms. The request for classroom placement must be made no later than ten (10) days after the first day of each school year or ten (10) days after the first day of the children's attendance.[4]

The school shall provide the classroom placement requested by the parent/guardian, with the following exceptions:

1. After consultation with the Superintendent or designee, the principal determines that an alternative placement is necessary.
2. After consultation with the teacher of each classroom in which the children are placed, the principal determines that the requested classroom placement is disruptive to the classroom. The principal may then determine the appropriate classroom placement for the siblings.
3. If the request for separate classroom placement would require the district to add an additional class to the grade level of the siblings.

The school may recommend classroom placement and provide professional education advice to the parent/guardian to assist in making the best decision for their children's education.

A parent/guardian may appeal the principal's classroom placement of twins or higher order multiples in accordance with Board policy.[5]
