D. Board President Report- Vice President Ms. Sharron Davis**, -** None

Ms. Ratliff arrives 5:26pm.

E. Superintendent Report- Interim Superintendent Taquia Hylton, shared and informed the Board of Education on what's forthcoming. IAR Testing begin March 3, 2026, and will continue through March 25th. (02:49) She also made mention that she met with ISV for our planning call for the district resource allocation review. It's mandated by ESA, Every Student Succeed Act, and it's a collaborative process that helps us identify the inequities and how we distribute funds in the district. Our formal RAR meeting is going to be held with ISBE on March 25th, 2026 at 11:00 AM, and we have designated certain administrators in the district who are going to be presenting on how we spend funds in the district. Our FEC classes are back. They begin tomorrow. Some of the classes that we will be hosting are basketball boxing, aerobics, art, wealth building via real estate, tumbling, martial arts, and step aerobics. Dr. Hylton shared that the FEC is also having a fair on March 28th from 10:00 to 1:00 PM. It is free. A fitness and wellness fair. And there's going to be a wealth of information that will be available for our communities

such as blood pressure checking, the fitness class. There'll be vegan food trucks, and so we're encouraging all of our community members to come. It is posted on our district website under our FEC.

Spring break is coming. The last day for students is March 25th, and then parent teacher conferences are going to be held on the 26th. The 27th is a non-attendance day for staff. After school programming for this school year will be completed on March 25th. So we wanted to make sure that everyone was aware of that. Our students and parents will be notified of this. I also want to share some great news about Fieldcrest Elementary School Eagles. They had a wonderful win for their school that they wanted to share with the Board of Education. There was a recent online community campaign that they had with the new Sky Zone that is being built in Alsip. It took over where LA Fitness used to be. Well, the contest, they were able to receive free passes for every student in their building for that Sky Zone. So, they voted about whatever the topic was. They shared the posts. And so, Fieldcrest won out of all the schools that were involved in that. So, congratulations all.

Also wanted to highlight our ISBE compliance audit. There were 20 items, and the last time I reported, we had 20 items that were completed. Right now, we have 50 confirmed as completed from the ISC4 since February 5th. We had 24 that were in progress waiting for the ISC4 to approve them. Now we have 21 more that are in progress. And then we had 31 items that were incomplete that we had not started on. Now we're down to 14 that we have not started on. So, we're moving quickly through those. We will be able to hit our deadline and be finish like I anticipated. There will be several upcoming events in the next month as we close our year. The first one that's coming up is our Fine Arts Best. That's going to be on April 22nd, followed by teacher appreciation. Our young authors event is going to be on May 11th, but what I will do is I will give the board a calendar of all of our events that are coming forward so you all will note the exact dates you guys can come out and support the respective campuses.

F. **Presentation- Chateaux School-Principal Ms. Brown/Asst. Principal Ms. Beversdorf** shared Chateaux School demographic presently they have 264 student's pre-K to fifth grade. 90.2% of our students are African American. 6.4% of our students are Hispanic and multi race are 2%. Our exceptional learners are 13%. Low income, 99%, and our attendance rate for our school year is 91.8%. I apologize for that. So, some of our celebrations that we've done this year, so we, for our students, we've done PBIS kickoff, never ever club, which is when students never, ever have to be reminded to turn in homework, never ever have to be reminded to wear uniform. They need to be celebrated. So that's what that is, student of the month. She also made mentioned that they do a weekly newsletter. They get weekly shout outs. We have employee of the month, and then we have our staff celebrations. So, October was very best teachers. We had Thanksgiving dinner for Super Bowl. We had a Super Bowl celebration. For the events that we just had previously, we had IAR meetings for grades three through five,

both virtually and in school, just so parents are more aware of what the test entails, so they're not so shocked and surprised.

G. **Department Updates**

1. Curriculum Instruction & Equity- Dr. Crosen, shared when you have IER testing and states testing, you're going to always have some hiccups. We had a few hiccups early on. We were able to rectify. Again, just to be over reporting in those situations, you report those situations to the state just to say, we had some irregularities that we were able to correct. We consult them. They then tell us how to fix it and we address them. And so that was really early on for us testing, but since then we've had some seamless testing and it's really, again, focused on, again, we are building our leaders and they are becoming better. So my second part of my update is about our student code of conduct. We are getting down to the nitty gritty now. So last Wednesday we were able to meet we had about 14 people, including parents, staff members. We had both of our spouse, both of our union support, so that was amazing. And so, we are now at the point where we're beginning to break up and make work groups. So, I say this because these work groups are open if you want to join one, you're welcome to join one. So, and it's really just found some of the areas that you are most comfortable in and then move into those spaces where you really feel like a passion about and can have a dialogue. So just in creating our discipline philosophy, that's Mr. Green, creating the restorative practices and framework that's Ms. Green. I forgot the E, I'm sorry. Our discipline matrix is Ms. Williams and Team Fieldcrest. The suspension guidelines is Mr. Sugrue and some of our junior high colleagues along with myself, Mr. Green and Ms. Green.

Ms. Green is leading it. And so, we just want to create that, some of our work that we're beginning. And then our timeline is that, so April 11th, we're having our first real work group. So, everyone has been given a task. They're then going to come back to us with the task. They were also given; we gave them three different example or four different examples of districts. We gave them Chicago Public Schools as an example, U46 as an example, our district and also East or Hazel Crest 152 and a half. The rationale for giving them the two largest districts in our state is because ultimately those are the most litigated and the most vetted through attorneys. So therefore, if they have something that we think are critical, then we can adopt and steal. It's not stealing, but it's.

(24:45)
So that's what we do as educators. And then we wanted to see a similar district within our community that had their student code of conduct. And so that was some of the work. Ultimately, our goal is that at the end of April, we can get feedback from our attorneys and our attorneys can either tell us we did a great job of ripping to shrinks, which is needed. And then we come back and revise it and then hopefully be able to have a presentation for you in June to say, "Here is what it looks like. This has been vetted through our attorneys. Here's some things that we have. " And then you give us feedback

and we go and take those feedback. So then when we start next year, we can also then in the month of July, early August, showing parents what it is, getting their feedback and talking about how does this work and how does this impact their children.

(25:32)
So that's where we are at. It is a labor of love, I must say, but it is some really good work that I am enjoying, and so we look forward to being able to present you further information about it soon.

2. Finance/CSBO-**As Presented**

3. Human Resource-As Presented-Dr. Hylton Shared with the Board that all job postings had been temporarily removed from the district website [26:57] [27:01] **Reason for Removal**: The postings contained outdated dates and needed to be cleaned up before posting positions for School Year 2027 [27:01] **Timeline for New Postings**: The superintendent confirmed that new job postings would be available "this week" and definitely by the end of the week [27:16] [28:12] **Vacancy Assessment**: The superintendent had met with all principals that day to determine actual vacancies for each school Board members expressed concern that the lack of posted positions was problematic because **potential candidates attending job fairs had no positions to apply for** [27:45]. This highlighted the urgency of getting the new postings up quickly. The superintendent assured the board that a comprehensive list of vacancies by school had been compiled and could be discussed in executive session if needed [27:34]. It was asked that all of the outdated vacancy that were on the website be removed and the site be cleaned-up and updated.

4. Student Services-As presented, Ms. Matthews asked that the Board review the report due to it having vital information in regards to cost of services rendered.

5. Family & Community Engagement-Mr. Franklin shared information on the fitness/wellness program. A free community event scheduled for March 28th from 10:00 to 1:00 PM, featuring blood pressure checks, fitness classes, and vegan food trucks [3:38] [3:36]. This event was provided at no cost to the district [32:27] [32:42].He also talked about the Prairie Hills **Junior High Push-In Program**: A new pilot program bringing martial arts instruction directly into the junior high during PE classes, focusing on emotional regulation and positive anger expression for at-risk youth.

6.Techology-Mr. L. Hill shared information which included discussions about panic button systems currently installed at secretary desks in every building that communicate directly with alarm panels to call police [34:38] [35:02]. Board members inquired about computer inventory management, with the technology director explaining that current inventory systems are not 100% up to date and that the department is developing a new in-house application using cell phone-like scanning capabilities for better device tracking. The board also discussed camera system upgrades, with a proposal for approximately $53,000 to cover all seven buildings [38:04] [38:13]. There were questions about Flock camera systems, which only record license plates, and discussions about potentially coordinating with local police departments for camera system compatibility.

7. Athletics-As presented, Dr. Hylton, however did share that Chateaux School won the Championship.

11. Approve Superintendent Action Items FY 27 Budget Development & Spending Authority- Dr, Hylton, presented this item as a request from Dr. Evans (the financial consultant) for the board's permission to begin budget planning for fiscal year 2027 [1:16:00] [1:16:16]. Dr. Hilton explained that Dr. Evans had mentioned this during her previous fiscal report presentation and sent a memo requesting board action to get permission to begin budget planning for next year [1:16:00].

However, during the discussion, board members questioned whether a formal vote was necessary for this item. Board members expressed confusion about why they needed to vote on allowing the administration to start budget development, as this seemed like a routine administrative function [1:22:21] [1:22:27] [1:21:53]. The board president clarified that this was simply asking permission for the administration to begin working on the budget [1:22:27] [1:23:10].

Ultimately, the board determined that no formal vote was required for this item, as budget development is part of the normal administrative process that occurs annually [1:23:10] [1:23:33] [1:23:36]. The item was removed from the action items requiring a vote.
