- + Strategic Planning: Identify a strategic planning vendor. Convene a planning committee to set new strategic goals.

WE DID NOT FORGET!

+ Inquisitive Learning

- + Create and establish an inquiry-based framework that values an interest-driven learning environment. Learners will, individually and collaboratively, focus on identifying, analyzing, and solving problems as inquisitive members of their community.

+ Partnerships

- + Establish partnerships that foster meaningful educational opportunities on local, regional, and global scales. Prepare all learners to become engaged and productive citizens through service to others, collaboration, and real-world connections.

+ Social Awareness

- + Our learners will feel connected, valued, and secure on digital and non-digital learning environments cultivated by a shared sense of community. Every individual will develop skills that promote an awareness of self and others as well as the environment, including the ability to understand the impact of their decisions.
