

School Board Candidate Info Sheet, 2026 Eastchester Union Free School District

1. Name:

Reid Kornman

2. Education:

BS - Information Science - University of Pittsburgh (2005)

3. Current occupation/professional experience:

AI, Immersive and Engineering Services Lead at Pfizer with more than 25 years of professional technology experience.

4. How many years have you lived in Eastchester? Do you have children who are currently attending or have graduated from Eastchester public schools?

8 years - 3 children currently attending or starting in the fall

5. Have you been elected to any leadership roles in the school district or in community organizations? What have you learned from these positions

I have been a part of the Green Knolls / Greenvale Neighborhood Association for years, and I have served on many different functions there. It has taught me that awareness, empathy, and talking face to face hold a tremendous value in this vast digital world.

I have been an active volunteer and chairman of other neighborhood associations before moving to Eastchester, and learned that stepping up and being willing to do one small thing is the first step in any journey even if the final destination is not known. Having the willingness, dedication, and reliability to follow through is the key.

6. What do you see as the role of a School Board trustee?

The key pillars of any school board trustee should be centered around fiscal responsibility, oversight for the superintendent, connecting with the community, and being able to clearly set the path forward for the school district. There are many areas I want to focus on individually and

provide my unique perspective and experience to but they all track back to those key pillars.
