LA CROSSE ENGINEERING ACADEMY

Start **powering your future** while earning college credits.

Join a two-year program designed to prepare you for a future in engineering. Courses are taught by local high school instructors at Western Technical College - La Crosse Campus. Student transportation is available.

Our Mission

We provide interested students with the appropriate academic rigor and technical skills needed to move into post-secondary engineering related careers.

11th Grade | Year One

Period 1	*AP Physics or English 12	Full Year
Period 2	*Fundamentals of Electronics	1st Semester
Period 2	*Engineering Processes	2nd Semester
Period 3	*Robotics & Programmable Logic Controllers	1st Semester
Period 3	*Mechatronics	2nd Semester

12th Grade | Year Two

Period 1	Physics or English 12	Full Year
Period 2	Engineering Design Capstone	Full Year
Period 3	*SolidWorks	1st Semester
Period 3	Microcontroller and Programming Applications	2nd Semester

*Dual Credit Opportunity
