Sibling Care/Sibcare Policy

Sibling care gives parents the opportunity to spend individualized time with their child in an age specific class and to fully engage during parent discussion time. If a family is taking an age specific class (examples-infants, toddlers, 2s and 3s, etc) children who are not in the age group should register for sibling care. Our sibcare room is staffed by a qualified teacher who leads age appropriate exploration, activities and play. This service is available for siblings 4 months through age 5 as part of our ECCE program. Babies under 4 months may attend any class with their family. Classes that include sibcare, are designated in the description. Register at the same time you register for your ECCE class.
