

MACLAY SCHOOL

Be Inspired. Be Determined. Be Unstoppable.

Dear Families,

We are excited to offer an optional opportunity for students currently in Kindergarten through Grade 5 to continue building their mathematical thinking over the summer.

We will be making **Primary Mathematics: Mastery and Beyond** workbooks available for purchase. These books focus on the most important standards from this year, along with key concepts that will be built upon at the start of next year.

These workbooks are designed to:

- Reinforce essential skills and concepts from the current grade level
- Strengthen understanding through meaningful and engaging practice
- Encourage students to apply their thinking in new and unfamiliar situations
- Build confidence, fluency, and flexibility in mathematics

Each book includes an answer key in the back, allowing students to work independently and check their thinking. The format is simple and portable, making it easy to bring along while traveling or to complete a few pages each week at a comfortable pace.

Participation is completely optional. There is no requirement to complete the entire book or turn it in. Students can work at their own pace, choose specific practices to focus on, and skip or revisit sections as needed. The book does not need to be completed in order, and families are encouraged to use it in a way that best supports their child's confidence and growth.

The cost of each workbook is \$12.95. If you would like to purchase a book for your child, please fill out the form. Charges will be processed via your FACTS account.

[Please complete the form by Wednesday, April 29th to place the order.](#) Workbooks will be distributed to students prior to the end of the school year. Additional summer work options will be posted on the MacLay website by the end of May.
