

Dear Parent/Guardian,

In alignment with Florida Statute, the FHSA, in conjunction with the Sports Medicine Advisory Committee and the Board of Directors, will require electrocardiogram (ECG) heart screenings for all incoming 9th graders and new student athletes in grades 10-12 effective July 1, 2026.

Maclay School Athletics, in partnership with [Who We Play For](#), is offering an **electrocardiogram (ECG) heart screening for student athletes on April 28, 2026**. This non-invasive screening will be offered during the school day as a convenience for our families.

These screenings do cost \$20.00 per student, and you must register your child using the link below by Monday, April 27th.

[Registration Link](#)

If your child will be participating in a sport during the 2026-2027 school year, this screening is mandatory.

Why take advantage of this electrocardiogram (ECG) heart screening?

- This screening will satisfy the [Second Chance Act law](#) requirement for student-athletes so they can legally play sports in the 2026-2027 school year.
- The standard physical is statistically proven to be less than 4% effective at detecting any heart conditions, and adding an ECG improves those odds to 80-95%.
- ECG screening saves lives.
- ECG screening is non-invasive, painless, and takes about 5 minutes.
- Each ECG will be interpreted by a pediatric cardiologist or cardiologist specifically trained in the heart of an athlete. Results will be returned via email within one week of the screening.
- An ECG typically costs around \$150.

[Watch this video](#) to understand more about what to expect at a heart screening.

If you have any questions, please reach out to the athletic director, Meredith Locasto meredithlocasto@maclay.org.
