

STUDENT ACTIVITIES
CONTESTS AND COMPETITION

FMF
(REGULATION)

UIL Activities

State Board and UIL rules will govern interscholastic activities; however, Board policies and District rules may supplement State Board and UIL rules.

No event will be scheduled and no student allowed to participate in any UIL event unless all pertinent rules and regulations are strictly enforced. The Superintendent or designee will maintain all necessary records and reports. Sponsors and coaches are responsible for knowledge of and compliance with rules for eligibility and participation. [See FM]

Athletic Program

A well-rounded program of interscholastic athletics will be maintained in the District secondary schools. The operation of the total program, including the starting and ending dates for each sport, will be in accordance with regulations set by the UIL and the Board.

Supervision of the program will be the responsibility of the Superintendent, but certain responsibilities may be delegated to other staff members. The athletic director will have direct responsibility to maintain the athletic program as an integral part of the educational program of each school.

Interschool competitive athletics will not be part of the elementary grades' program. To the extent practicable, a program of intraschool sports activities for elementary students will be maintained as part of the physical education program.

Non-UIL Activities

Contests and competitive activities that are sponsored by outside organizations will not be recommended to students unless the activities supplement and do not interfere with the regular school program. Contests and competitive activities will have the prior approval of the Superintendent or designee, who will develop the necessary rules and regulations to implement this policy. [See also FM]
