

INSTRUCTIONAL RESOURCES
COMMUNITY INSTRUCTIONAL RESOURCES

EFC
(REGULATION)

The District encourages curriculum enrichment through the use of community resource persons. Persons outside the school who are able to contribute to student education because of special knowledge or talents may be invited to address student groups. The limitations imposed by the necessity to schedule the regular instructional program will be considered when arranging for speakers.

The appropriate administrator will give prior approval for visits and presentations from people in the community. [See GKC]
